

balanced / low OVL

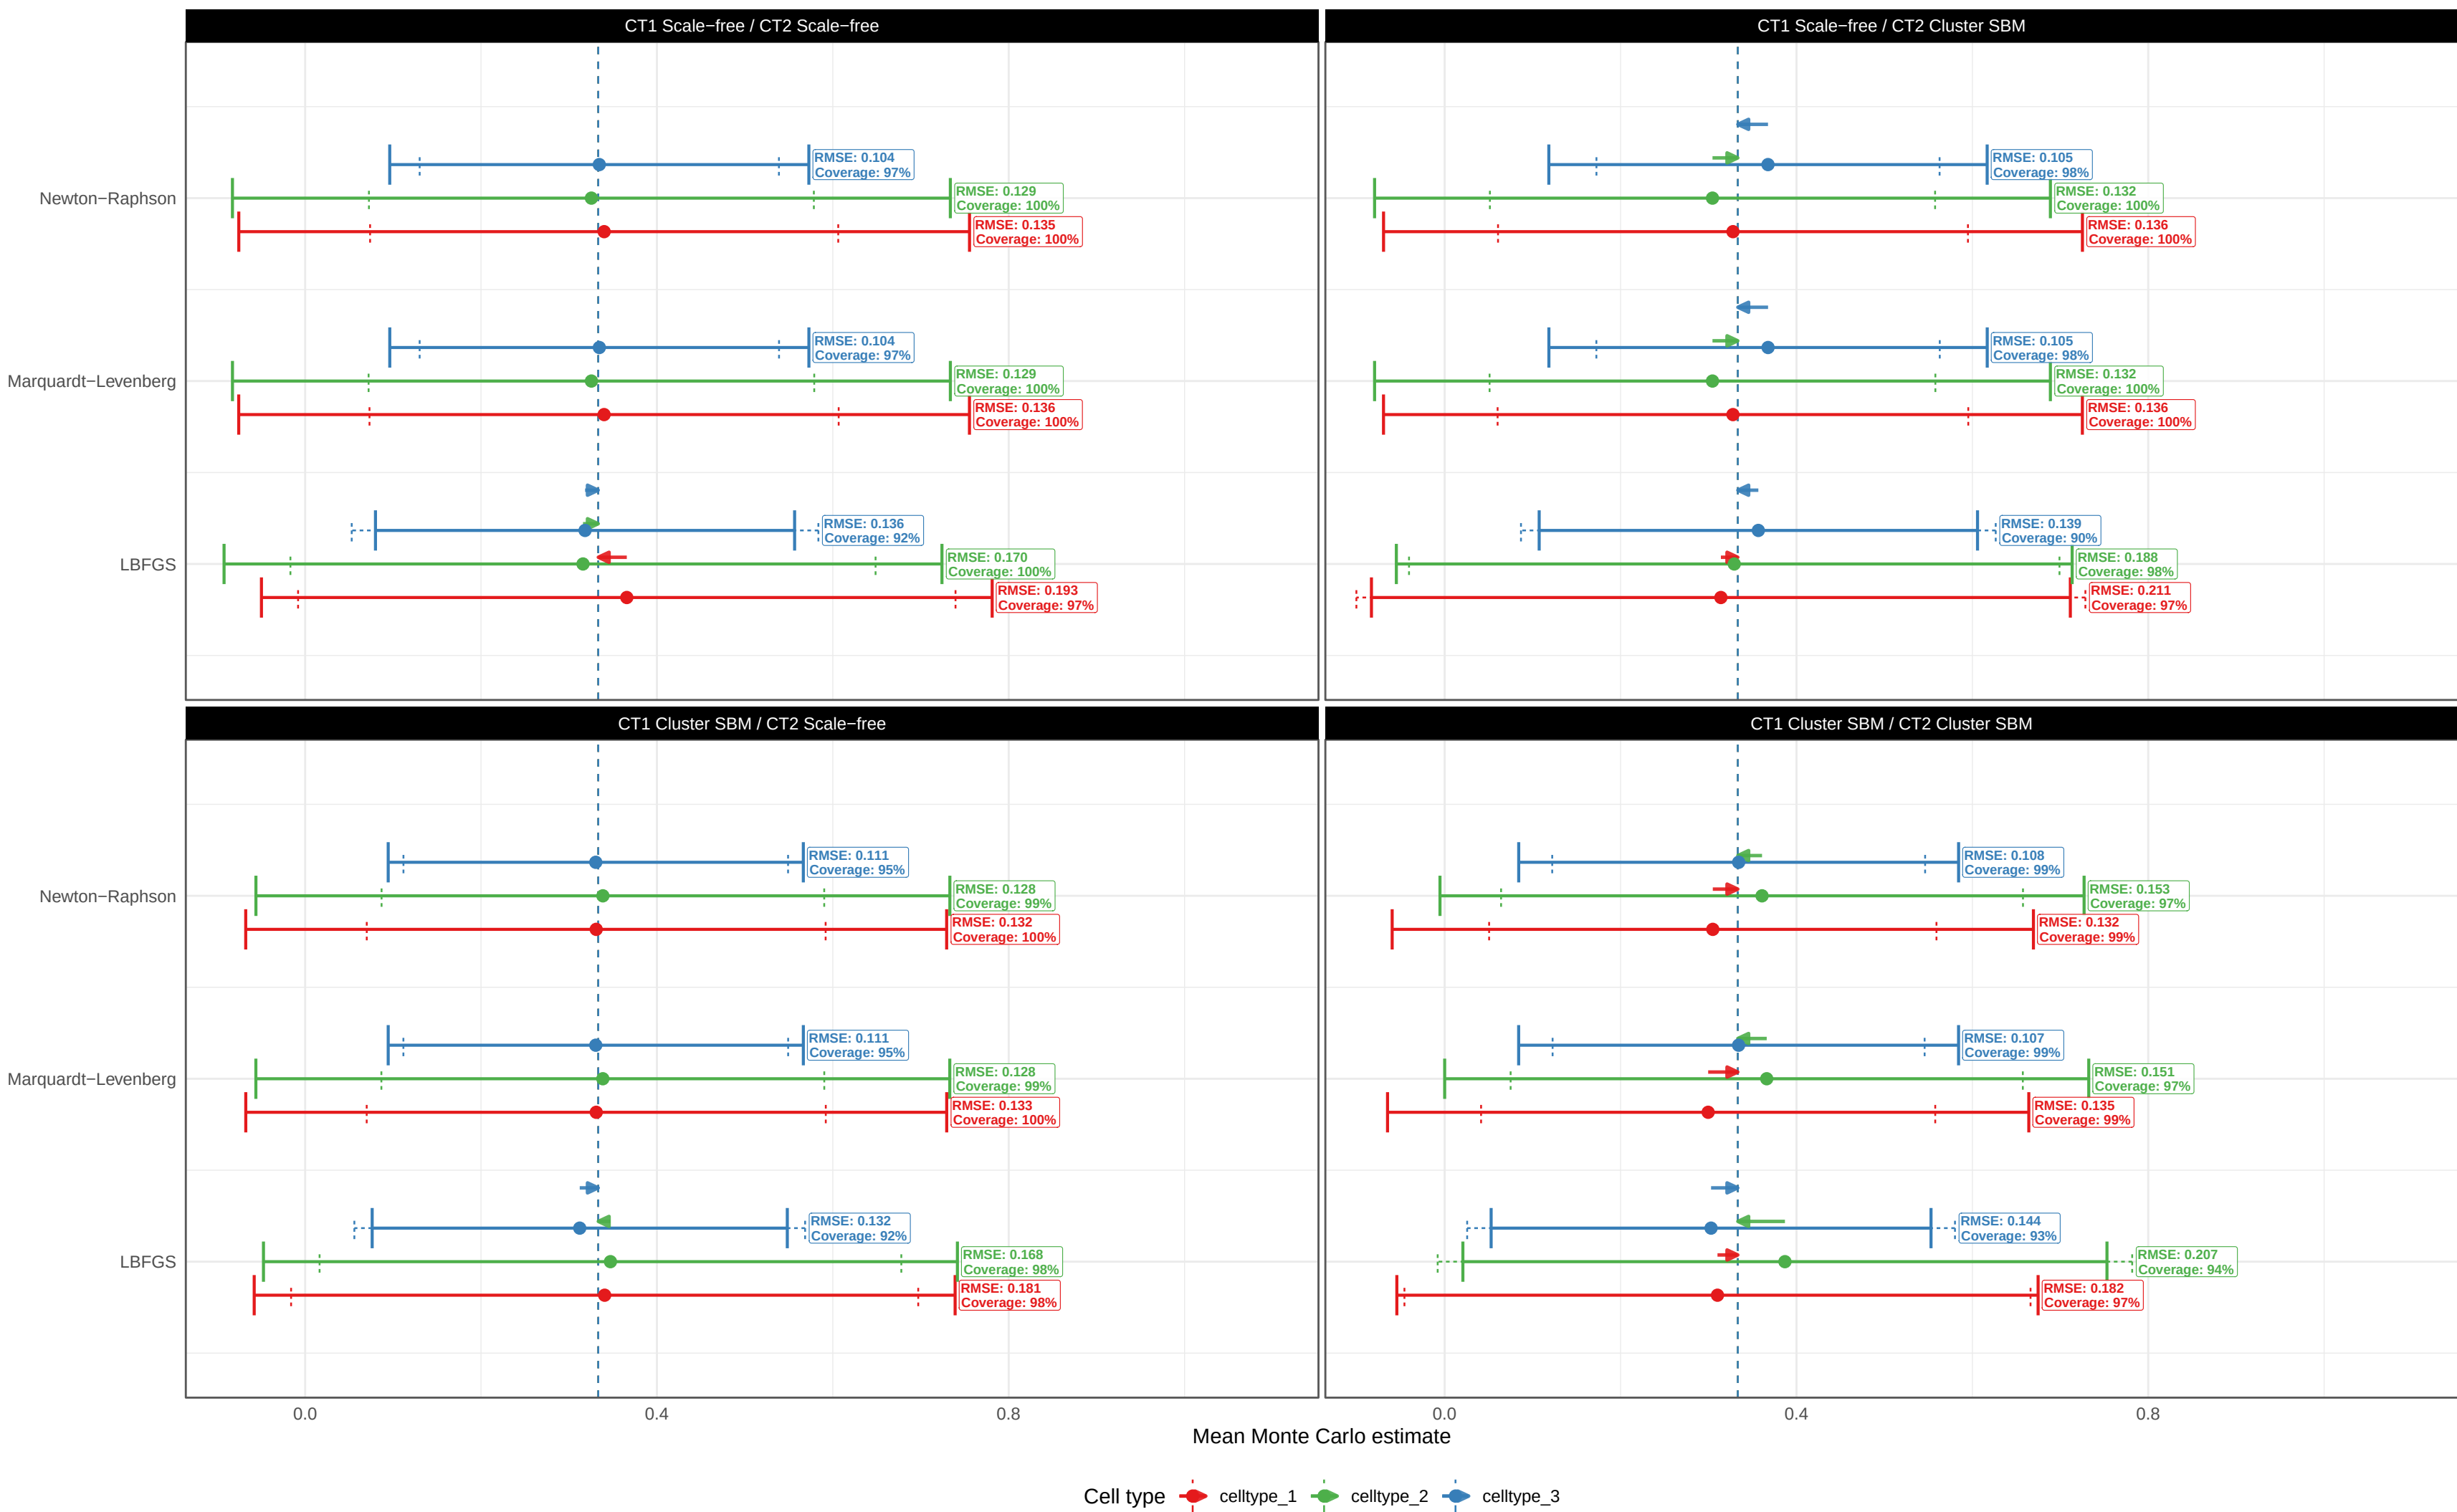

[=====] Solid whiskers: mean estimate plus or minus 1.96 times the expected Fisher Wald SE at the true composition when available.

[-----] Dashed whiskers: plus or minus 1.96 times the empirical Monte Carlo SD.

: : : Vertical dashed lines: true proportions (one colour per type).

Labels: RMSE and Wald coverage for each cell type.

balanced / moderate OVL

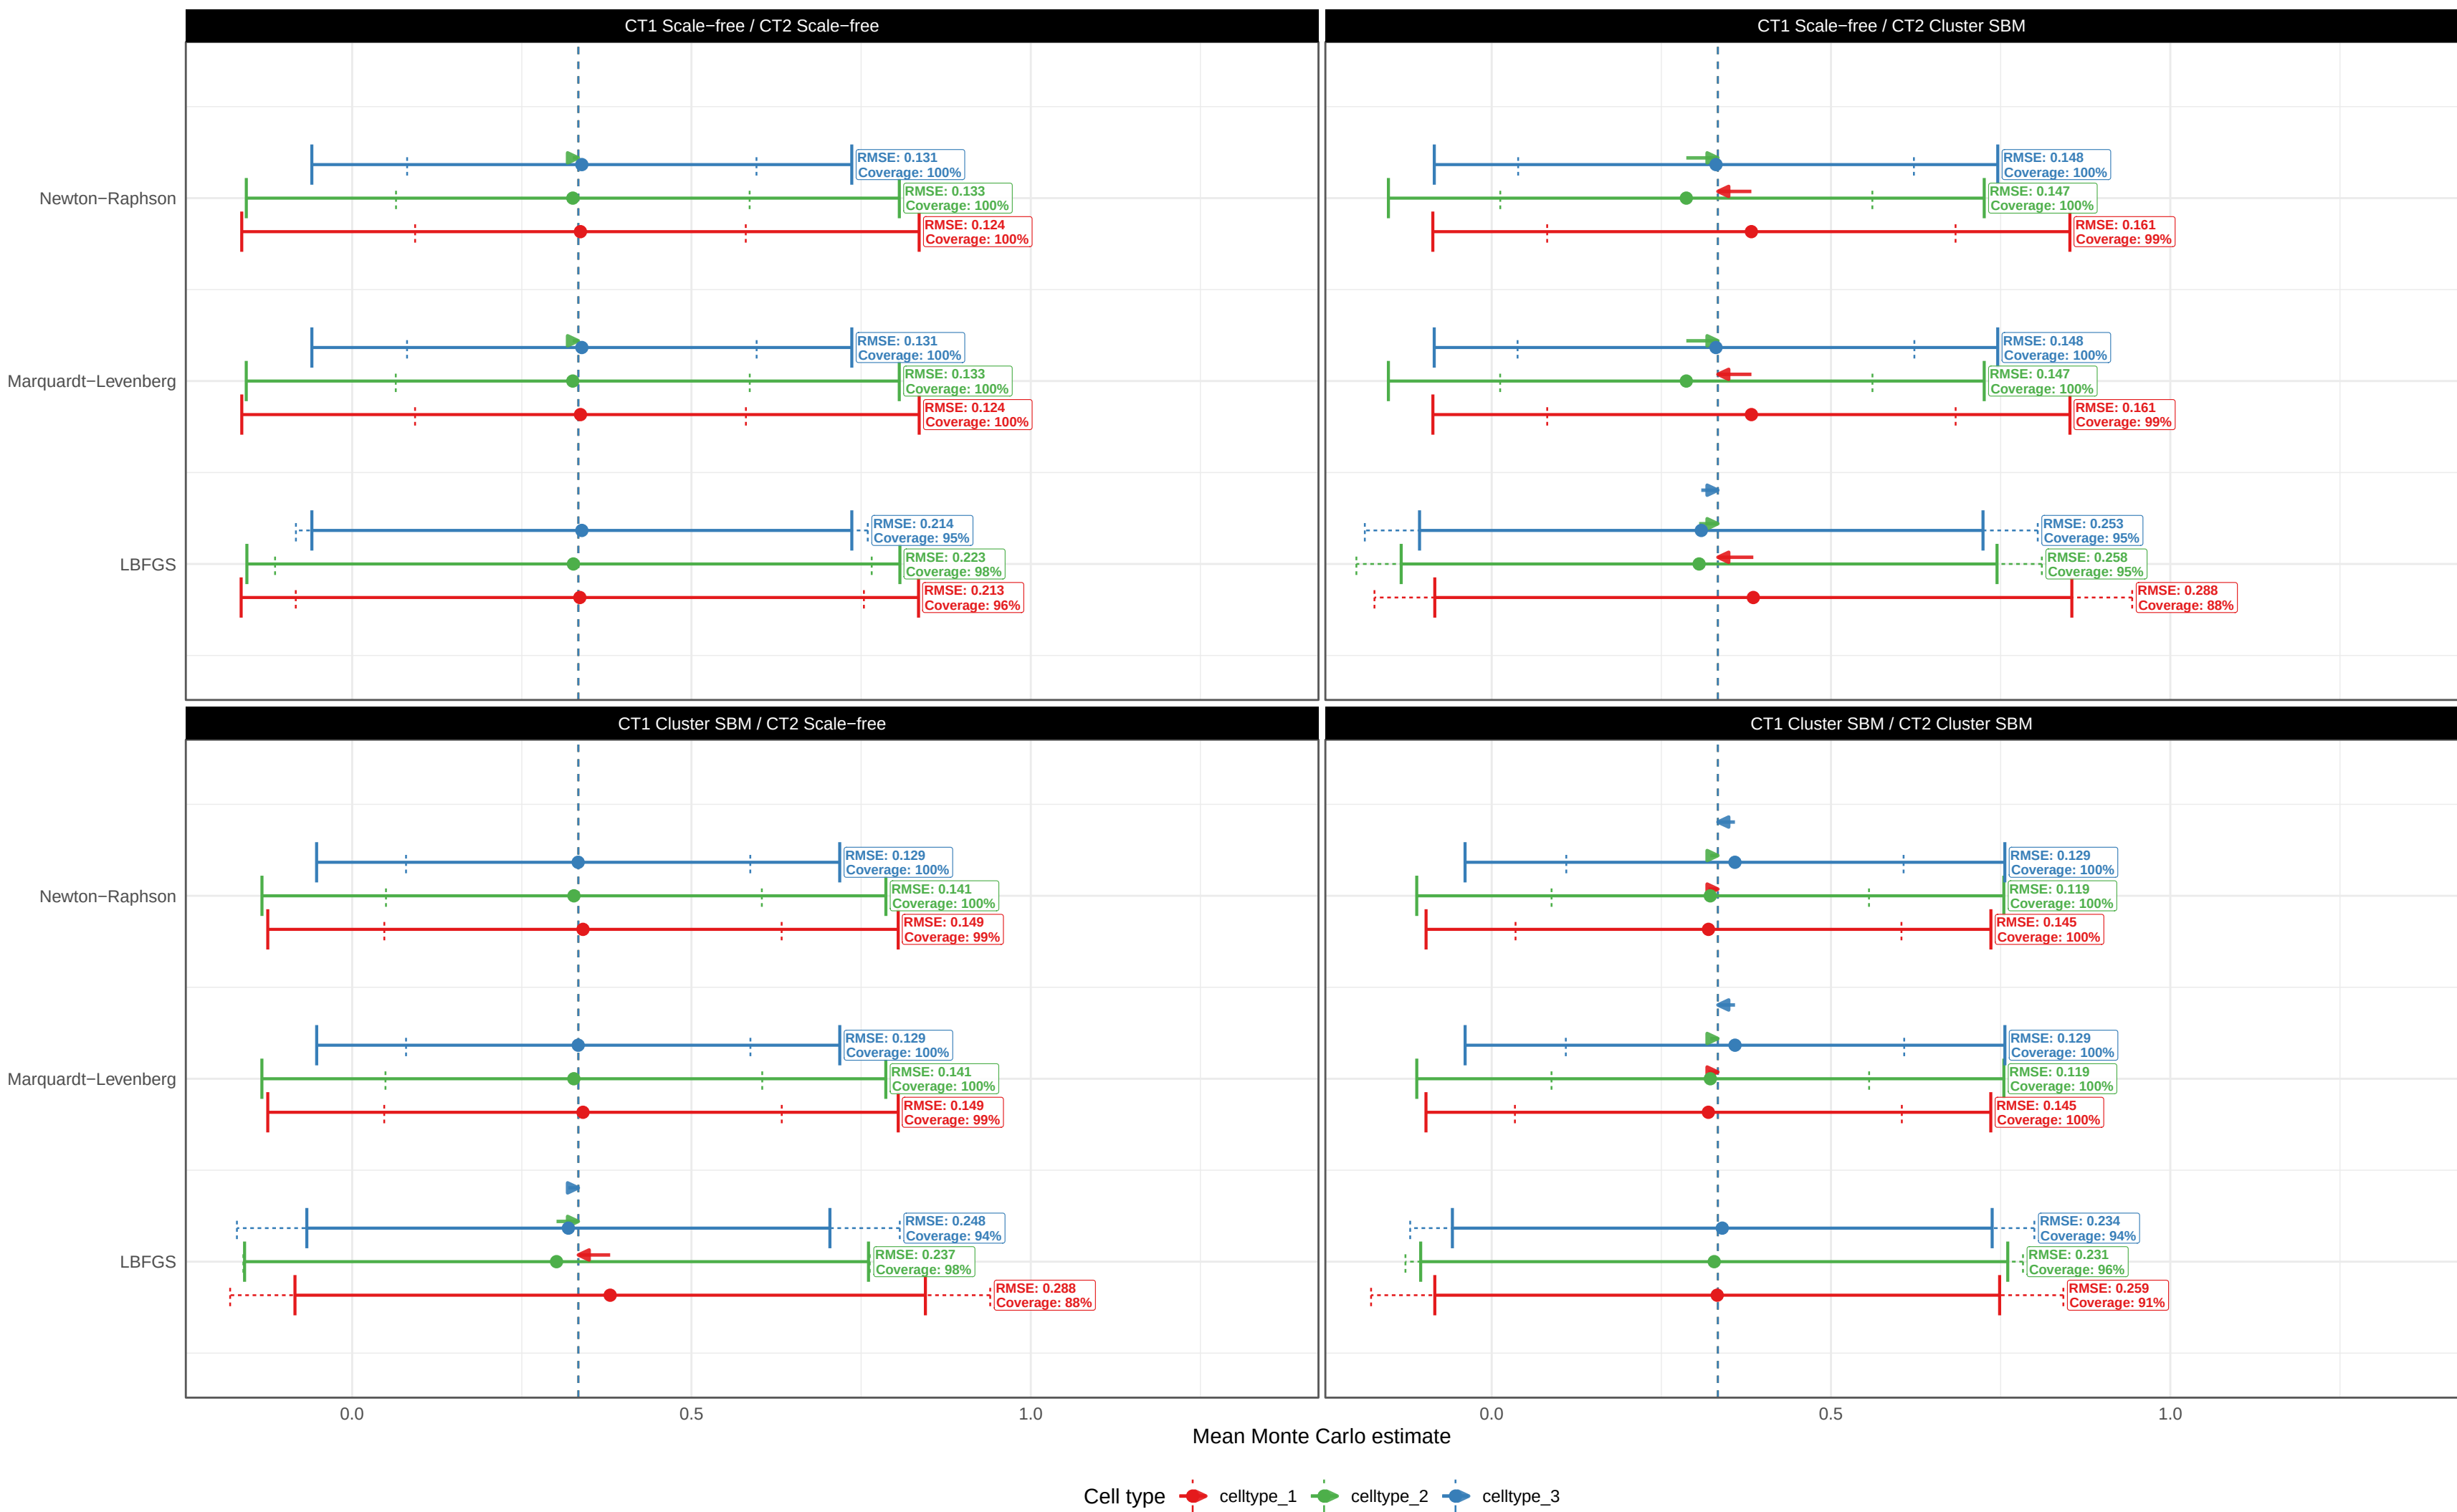

[====] Solid whiskers: mean estimate plus or minus 1.96 times the expected-Fisher Wald SE at the true composition when available.

[---] Dashed whiskers: plus or minus 1.96 times the empirical Monte Carlo SD.

: : : Vertical dashed lines: true proportions (one colour per type).

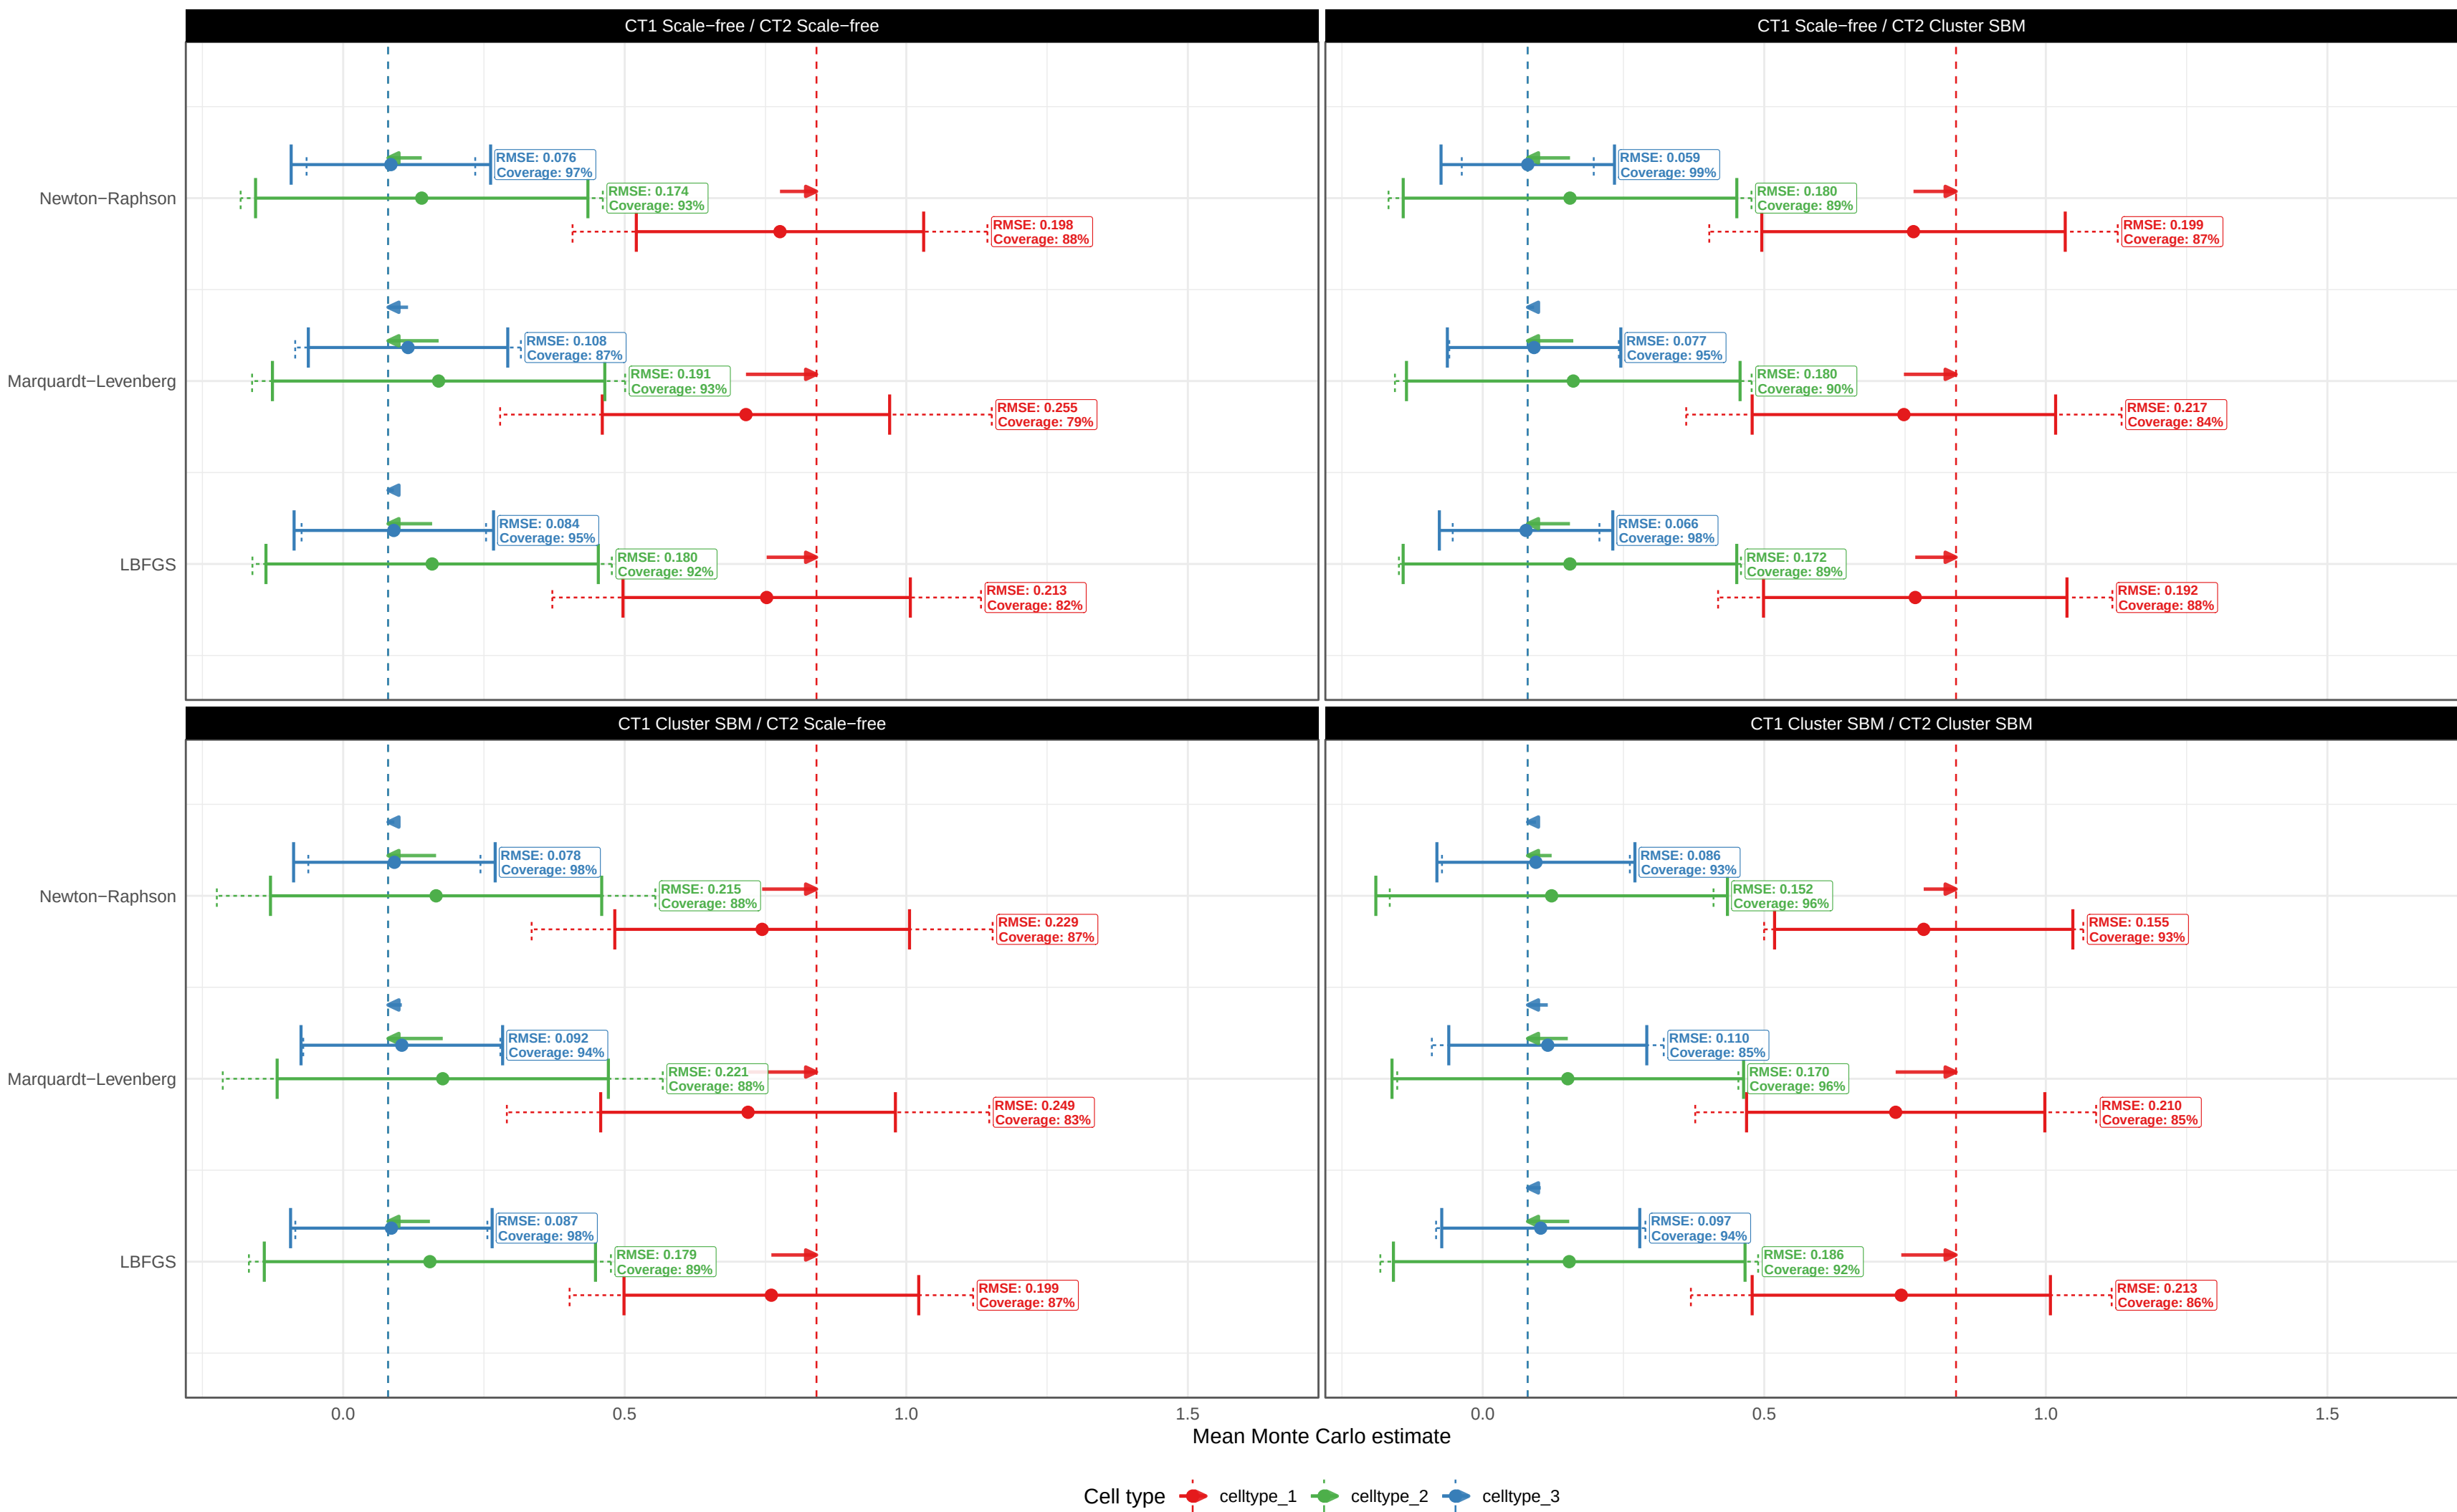

Labels: RMSE and Wald coverage for each cell type.

balanced / high OVL

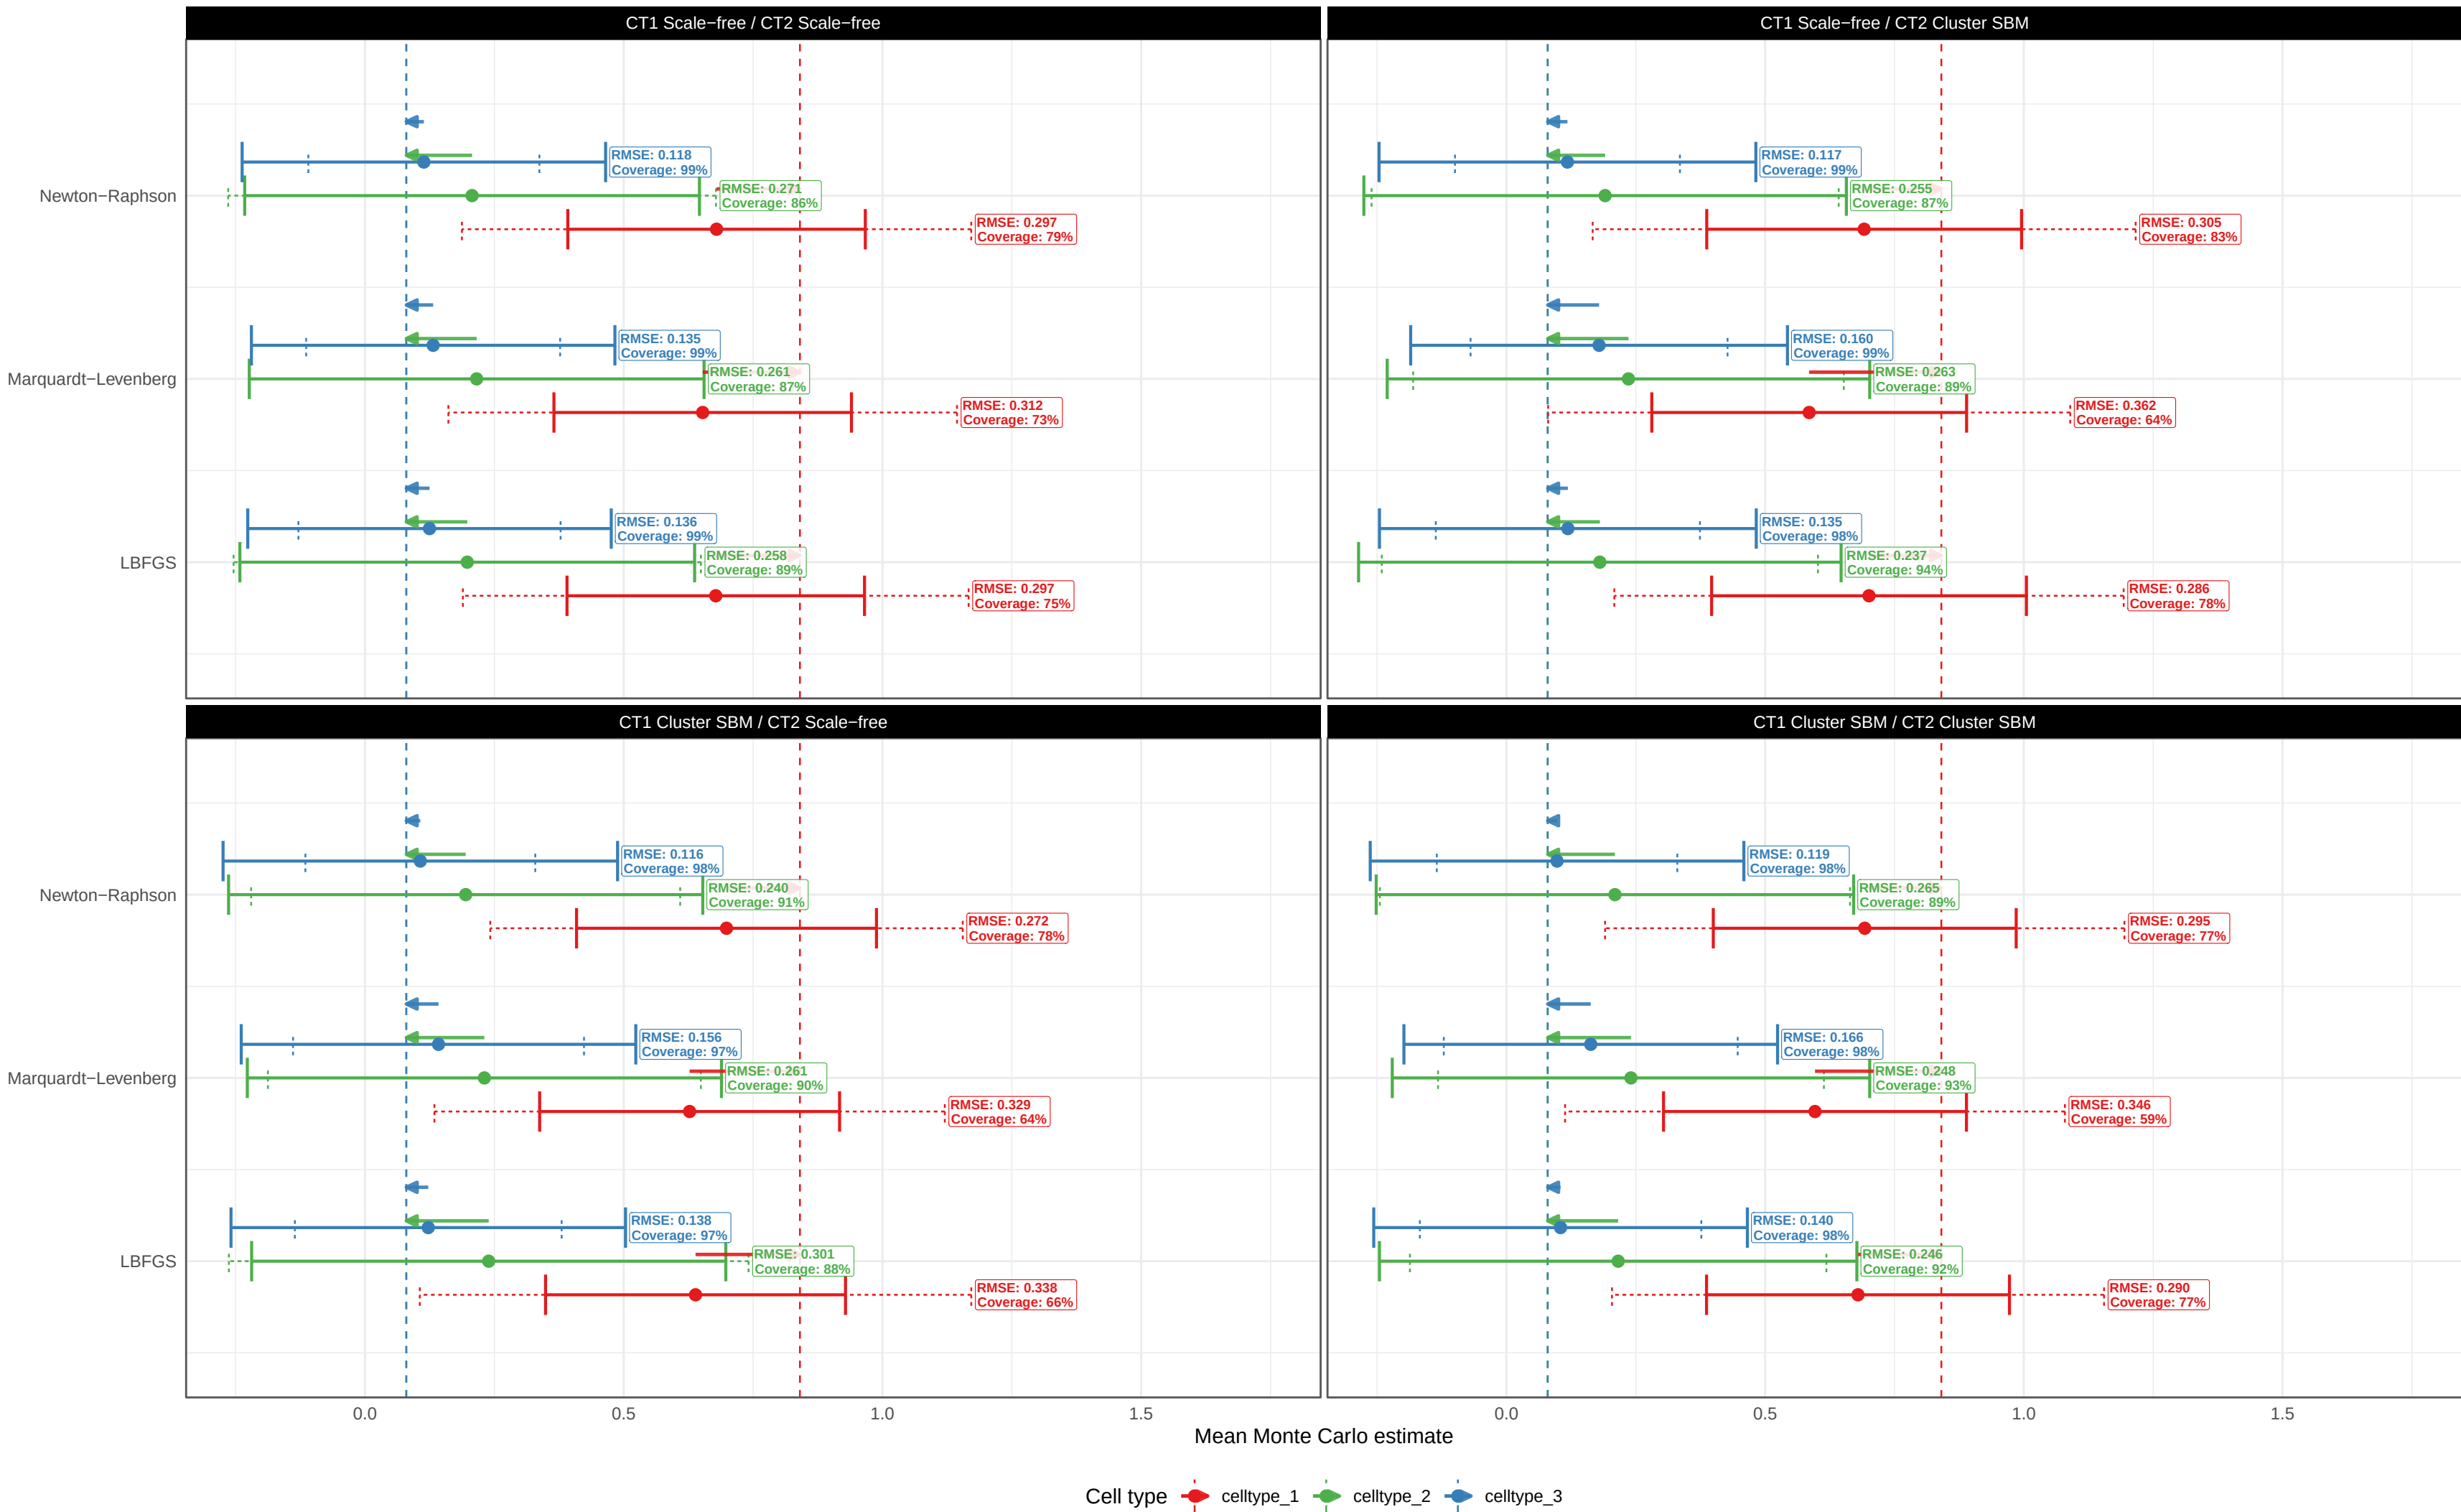

[====] Solid whiskers: mean estimate plus or minus 1.96 times the expected-Fisher Wald SE at the true composition when available.
[---] Dashed whiskers: plus or minus 1.96 times the empirical Monte Carlo SD.
: : : Vertical dashed lines: true proportions (one colour per type).
Labels: RMSE and Wald coverage for each cell type.

moderately unbalanced / low OVL

[====] Solid whiskers: mean estimate plus or minus 1.96 times the expected Fisher Wald SE at the true composition when available.
[---] Dashed whiskers: plus or minus 1.96 times the empirical Monte Carlo SD.
: : : Vertical dashed lines: true proportions (one colour per type).
Labels: RMSE and Wald coverage for each cell type.

moderately unbalanced / moderate OVL

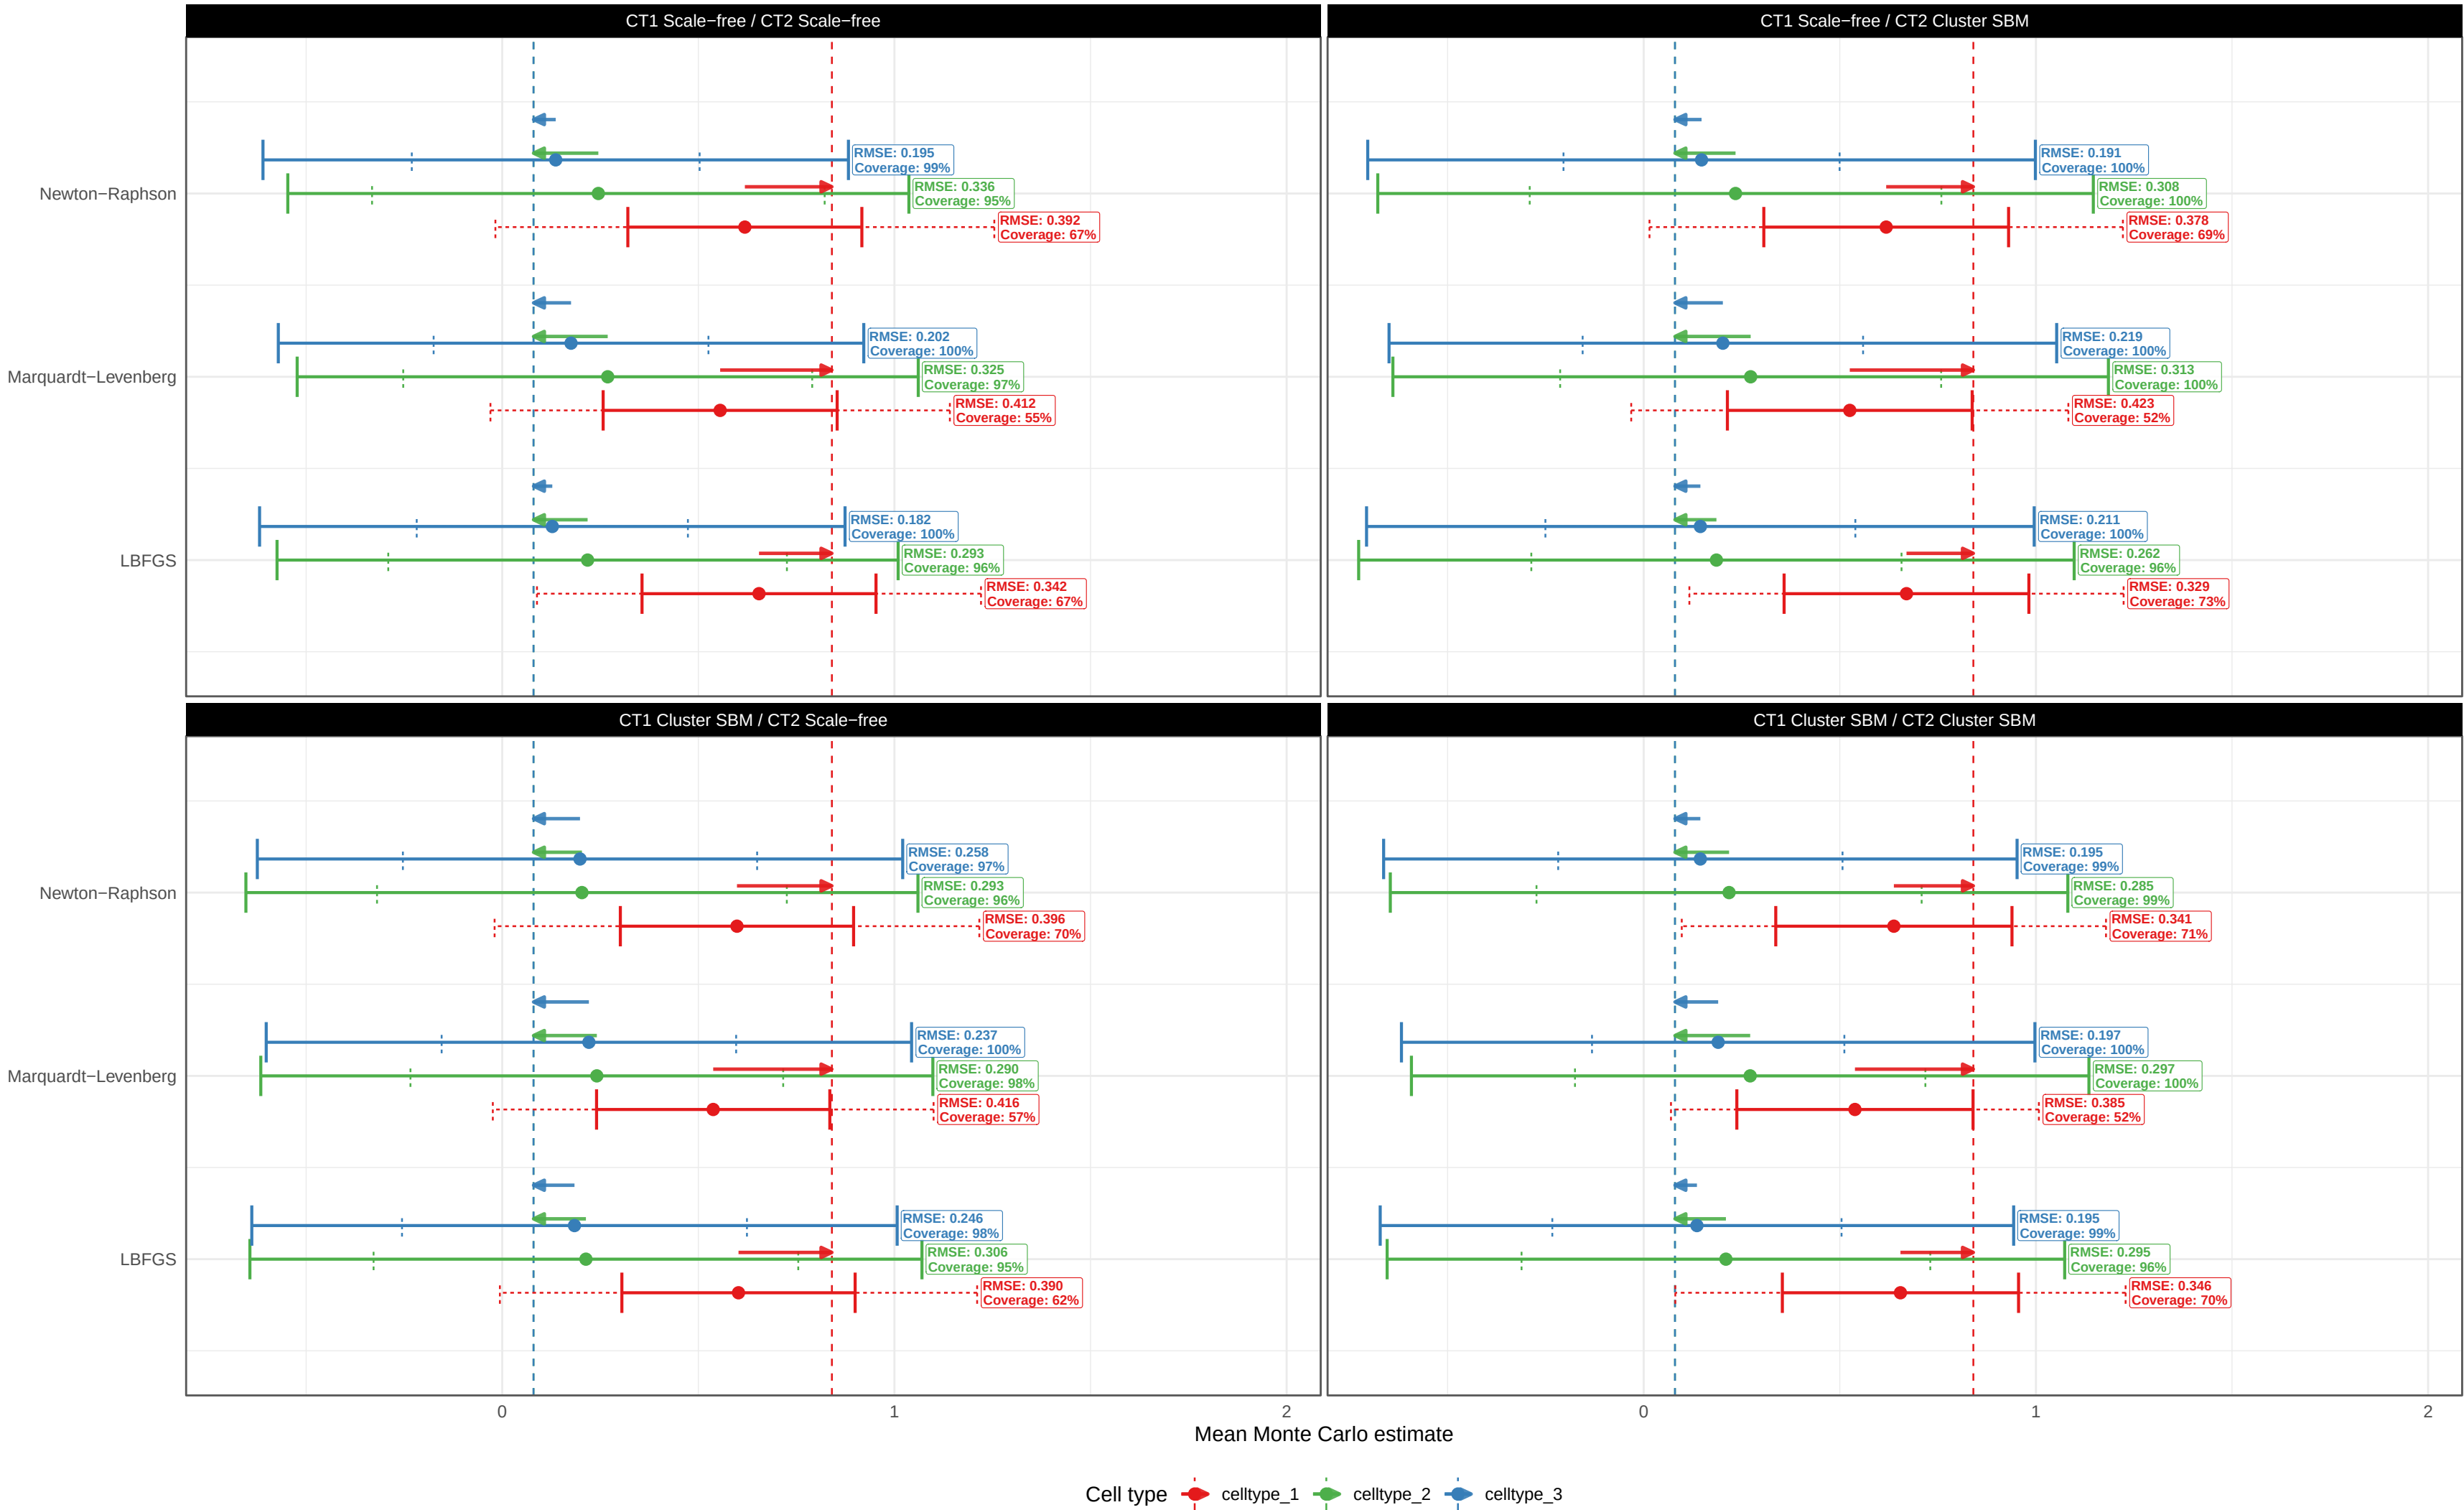

[=====] Solid whiskers: mean estimate plus or minus 1.96 times the expected-Fisher Wald SE at the true composition when available.

[-----] Dashed whiskers: plus or minus 1.96 times the empirical Monte Carlo SD.

: : : Vertical dashed lines: true proportions (one colour per type).

Labels: RMSE and Wald coverage for each cell type.

moderately unbalanced / high OVL

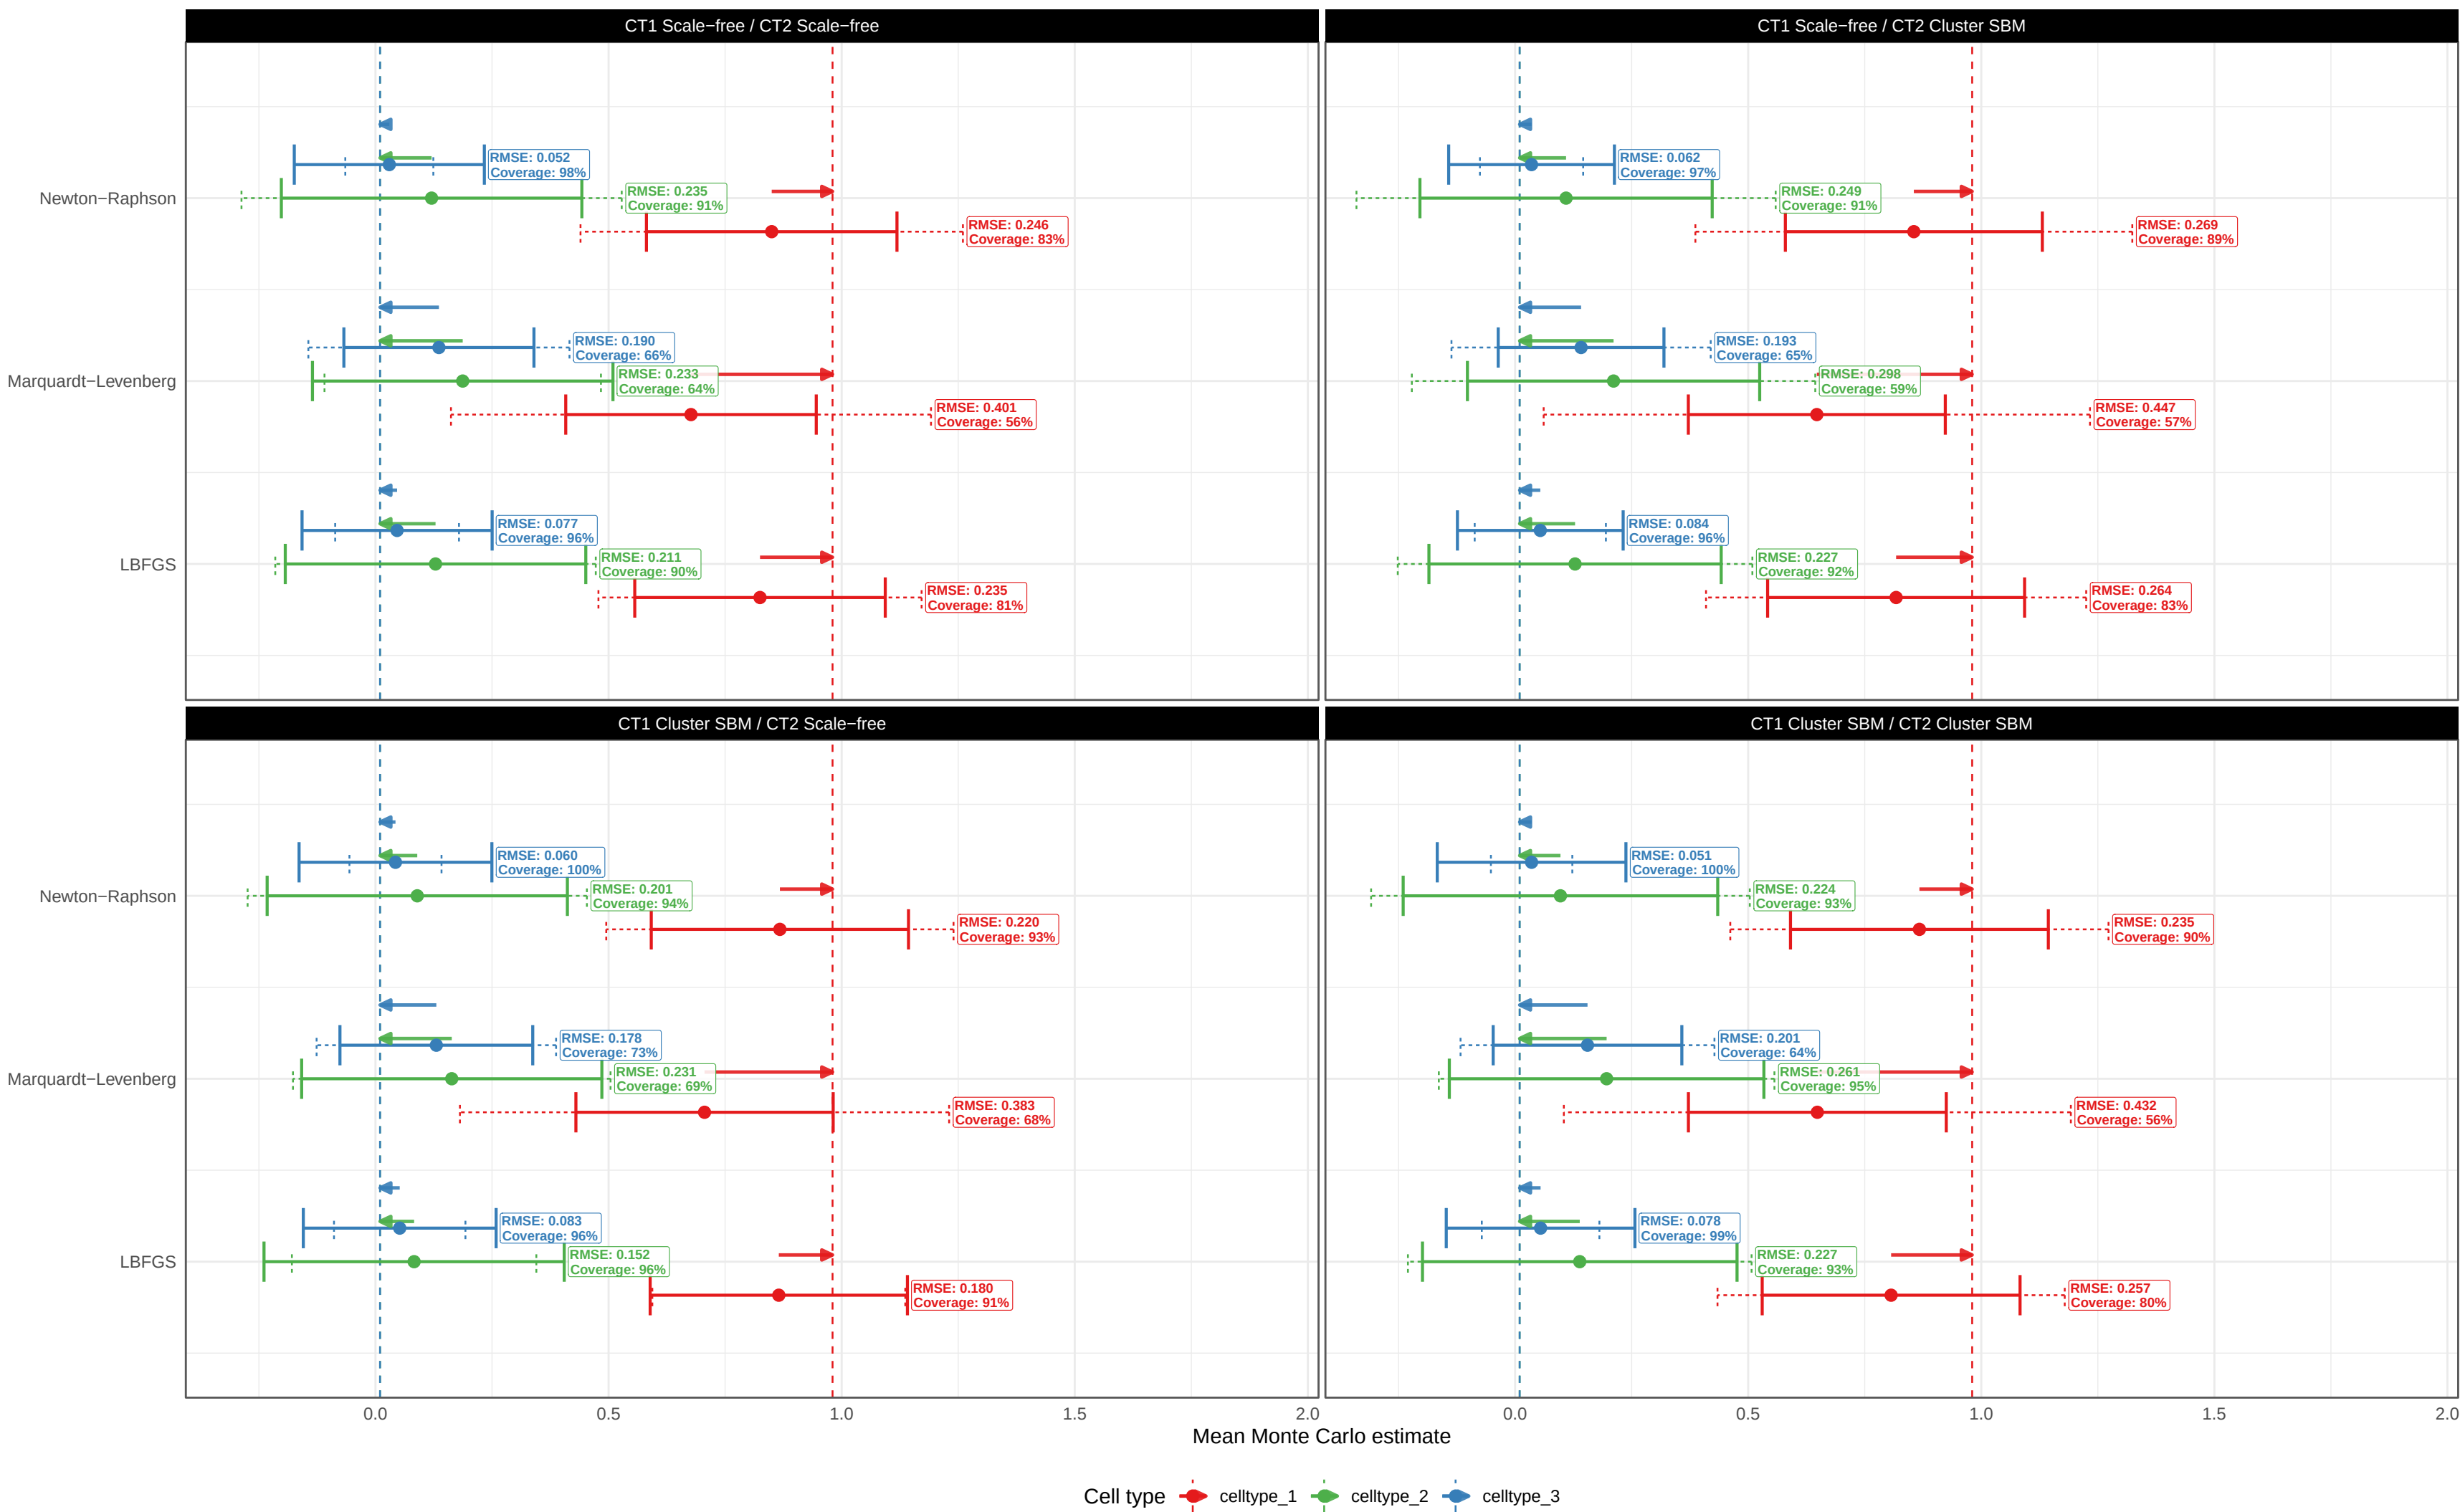

[====] Solid whiskers: mean estimate plus or minus 1.96 times the expected-Fisher Wald SE at the true composition when available.

[---] Dashed whiskers: plus or minus 1.96 times the empirical Monte Carlo SD.

: : : Vertical dashed lines: true proportions (one colour per type).

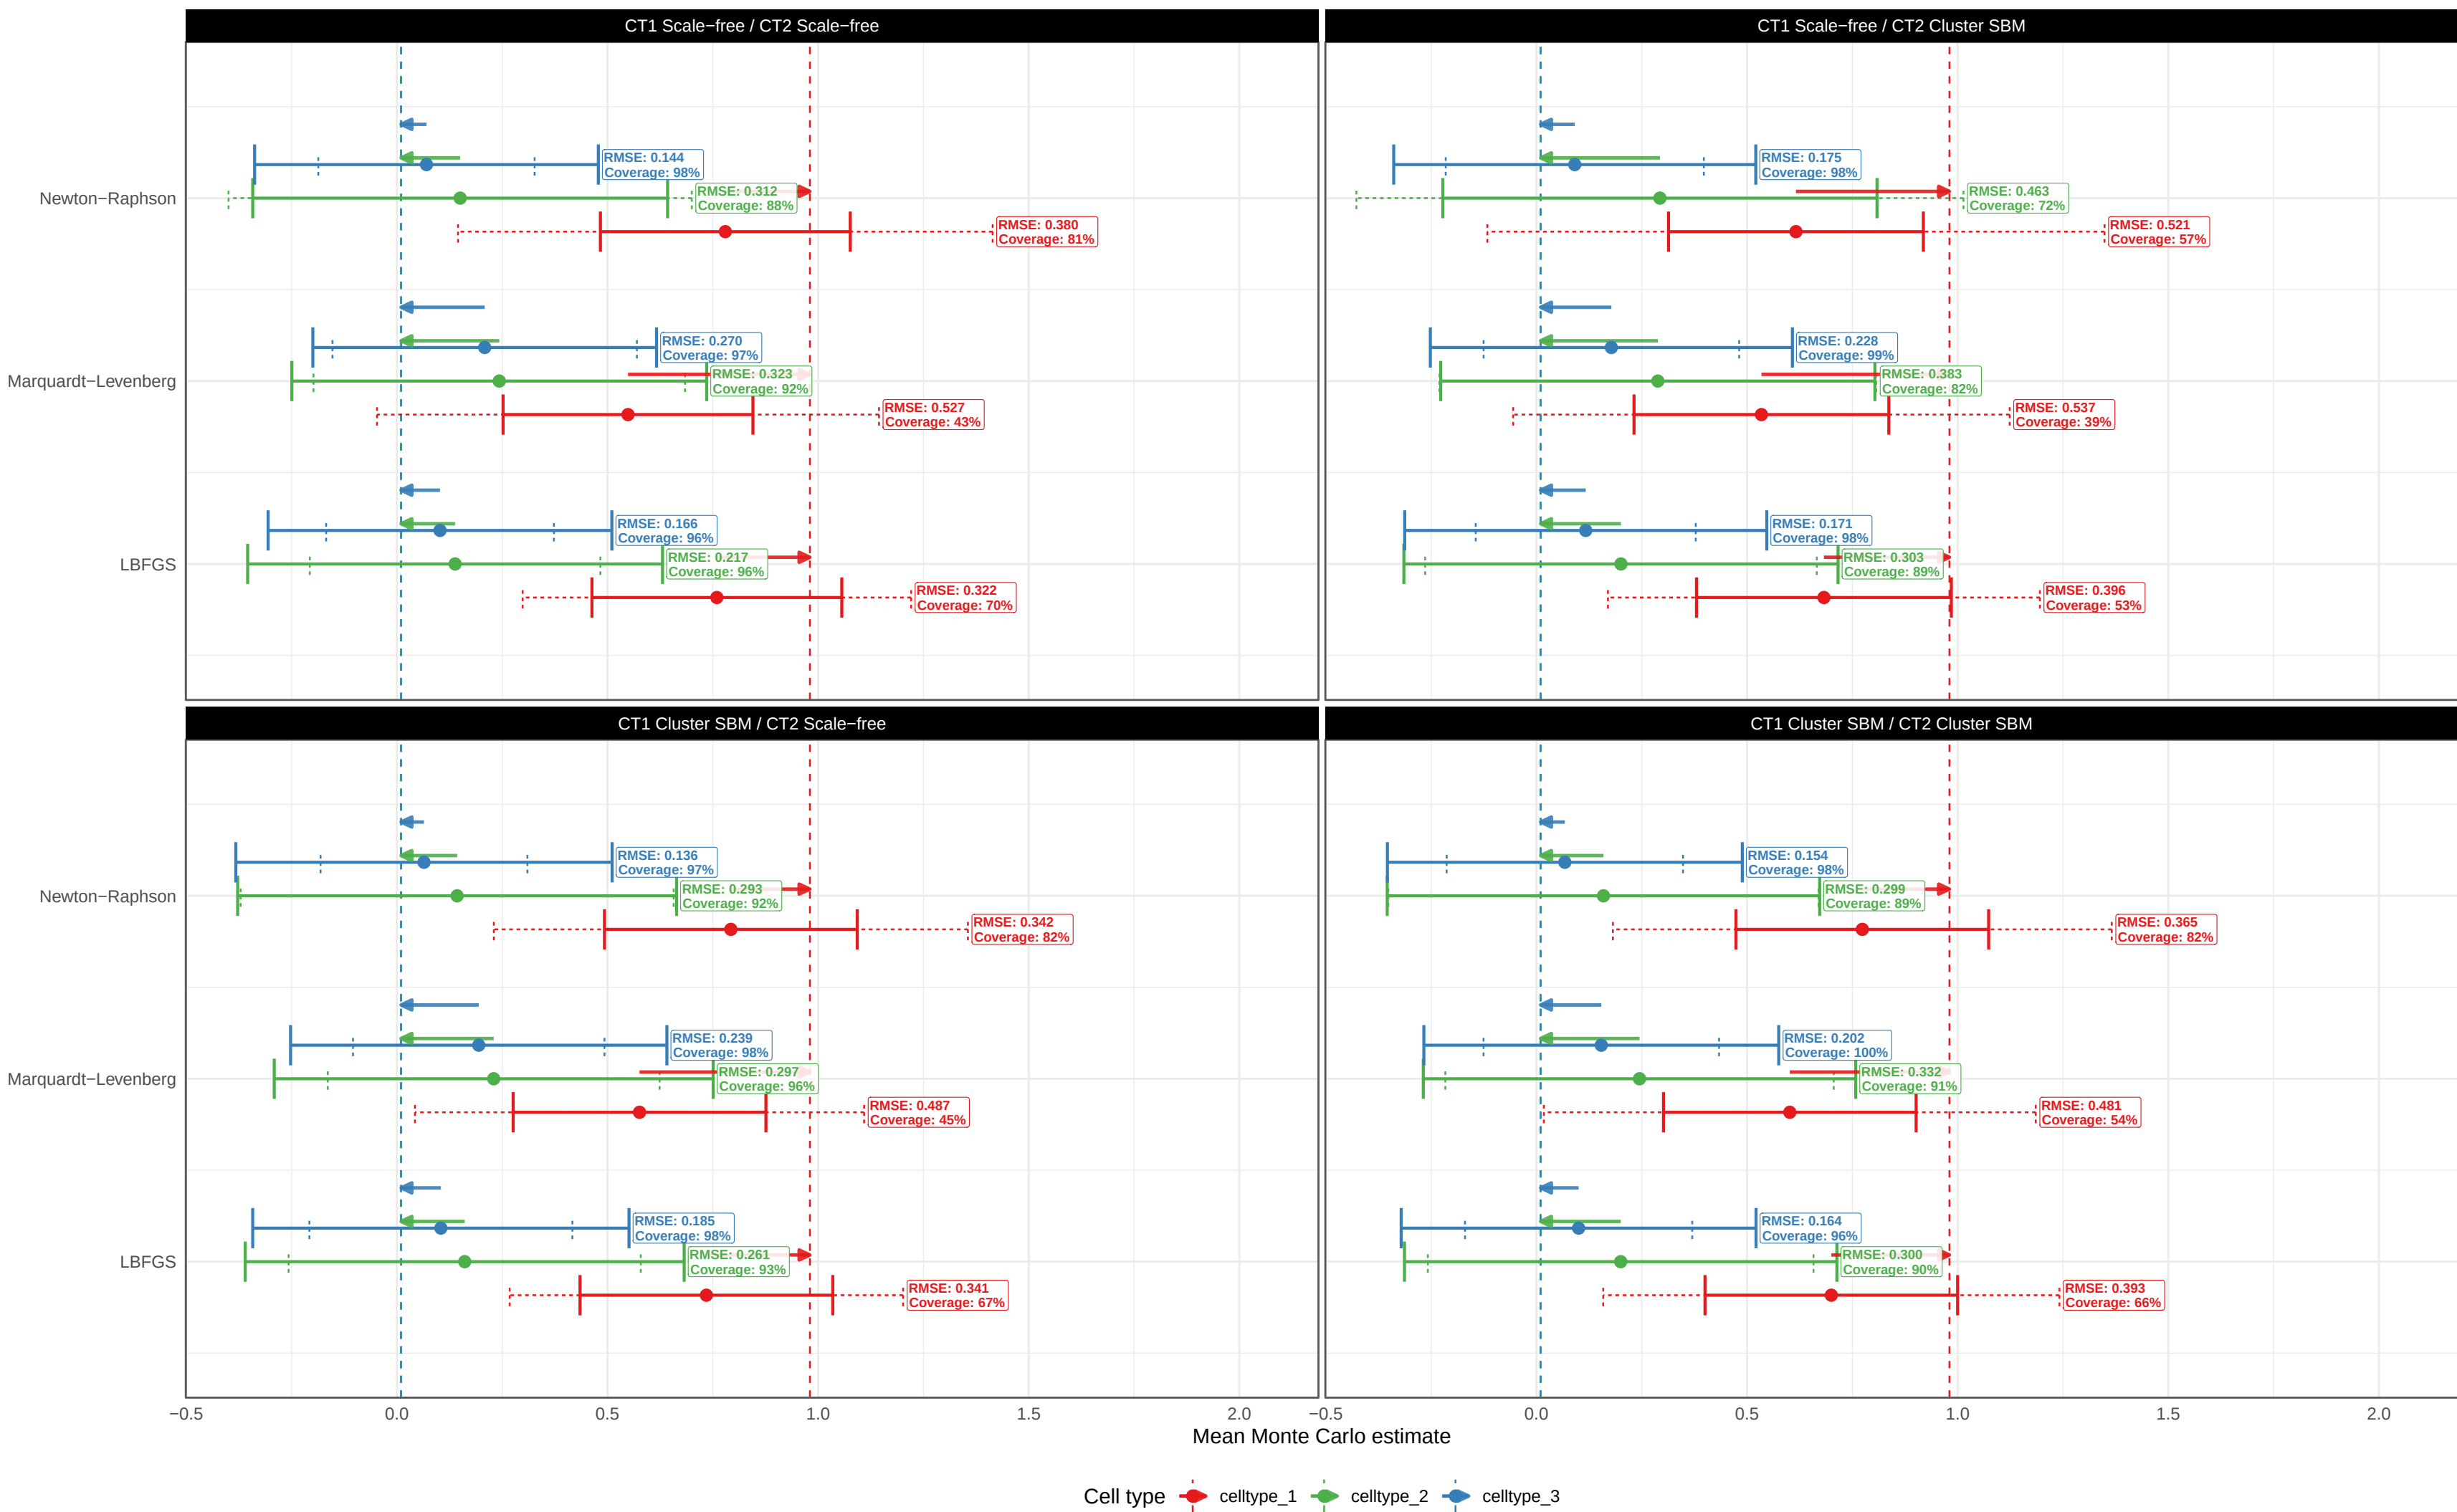

Labels: RMSE and Wald coverage for each cell type.

highly unbalanced / low OVL

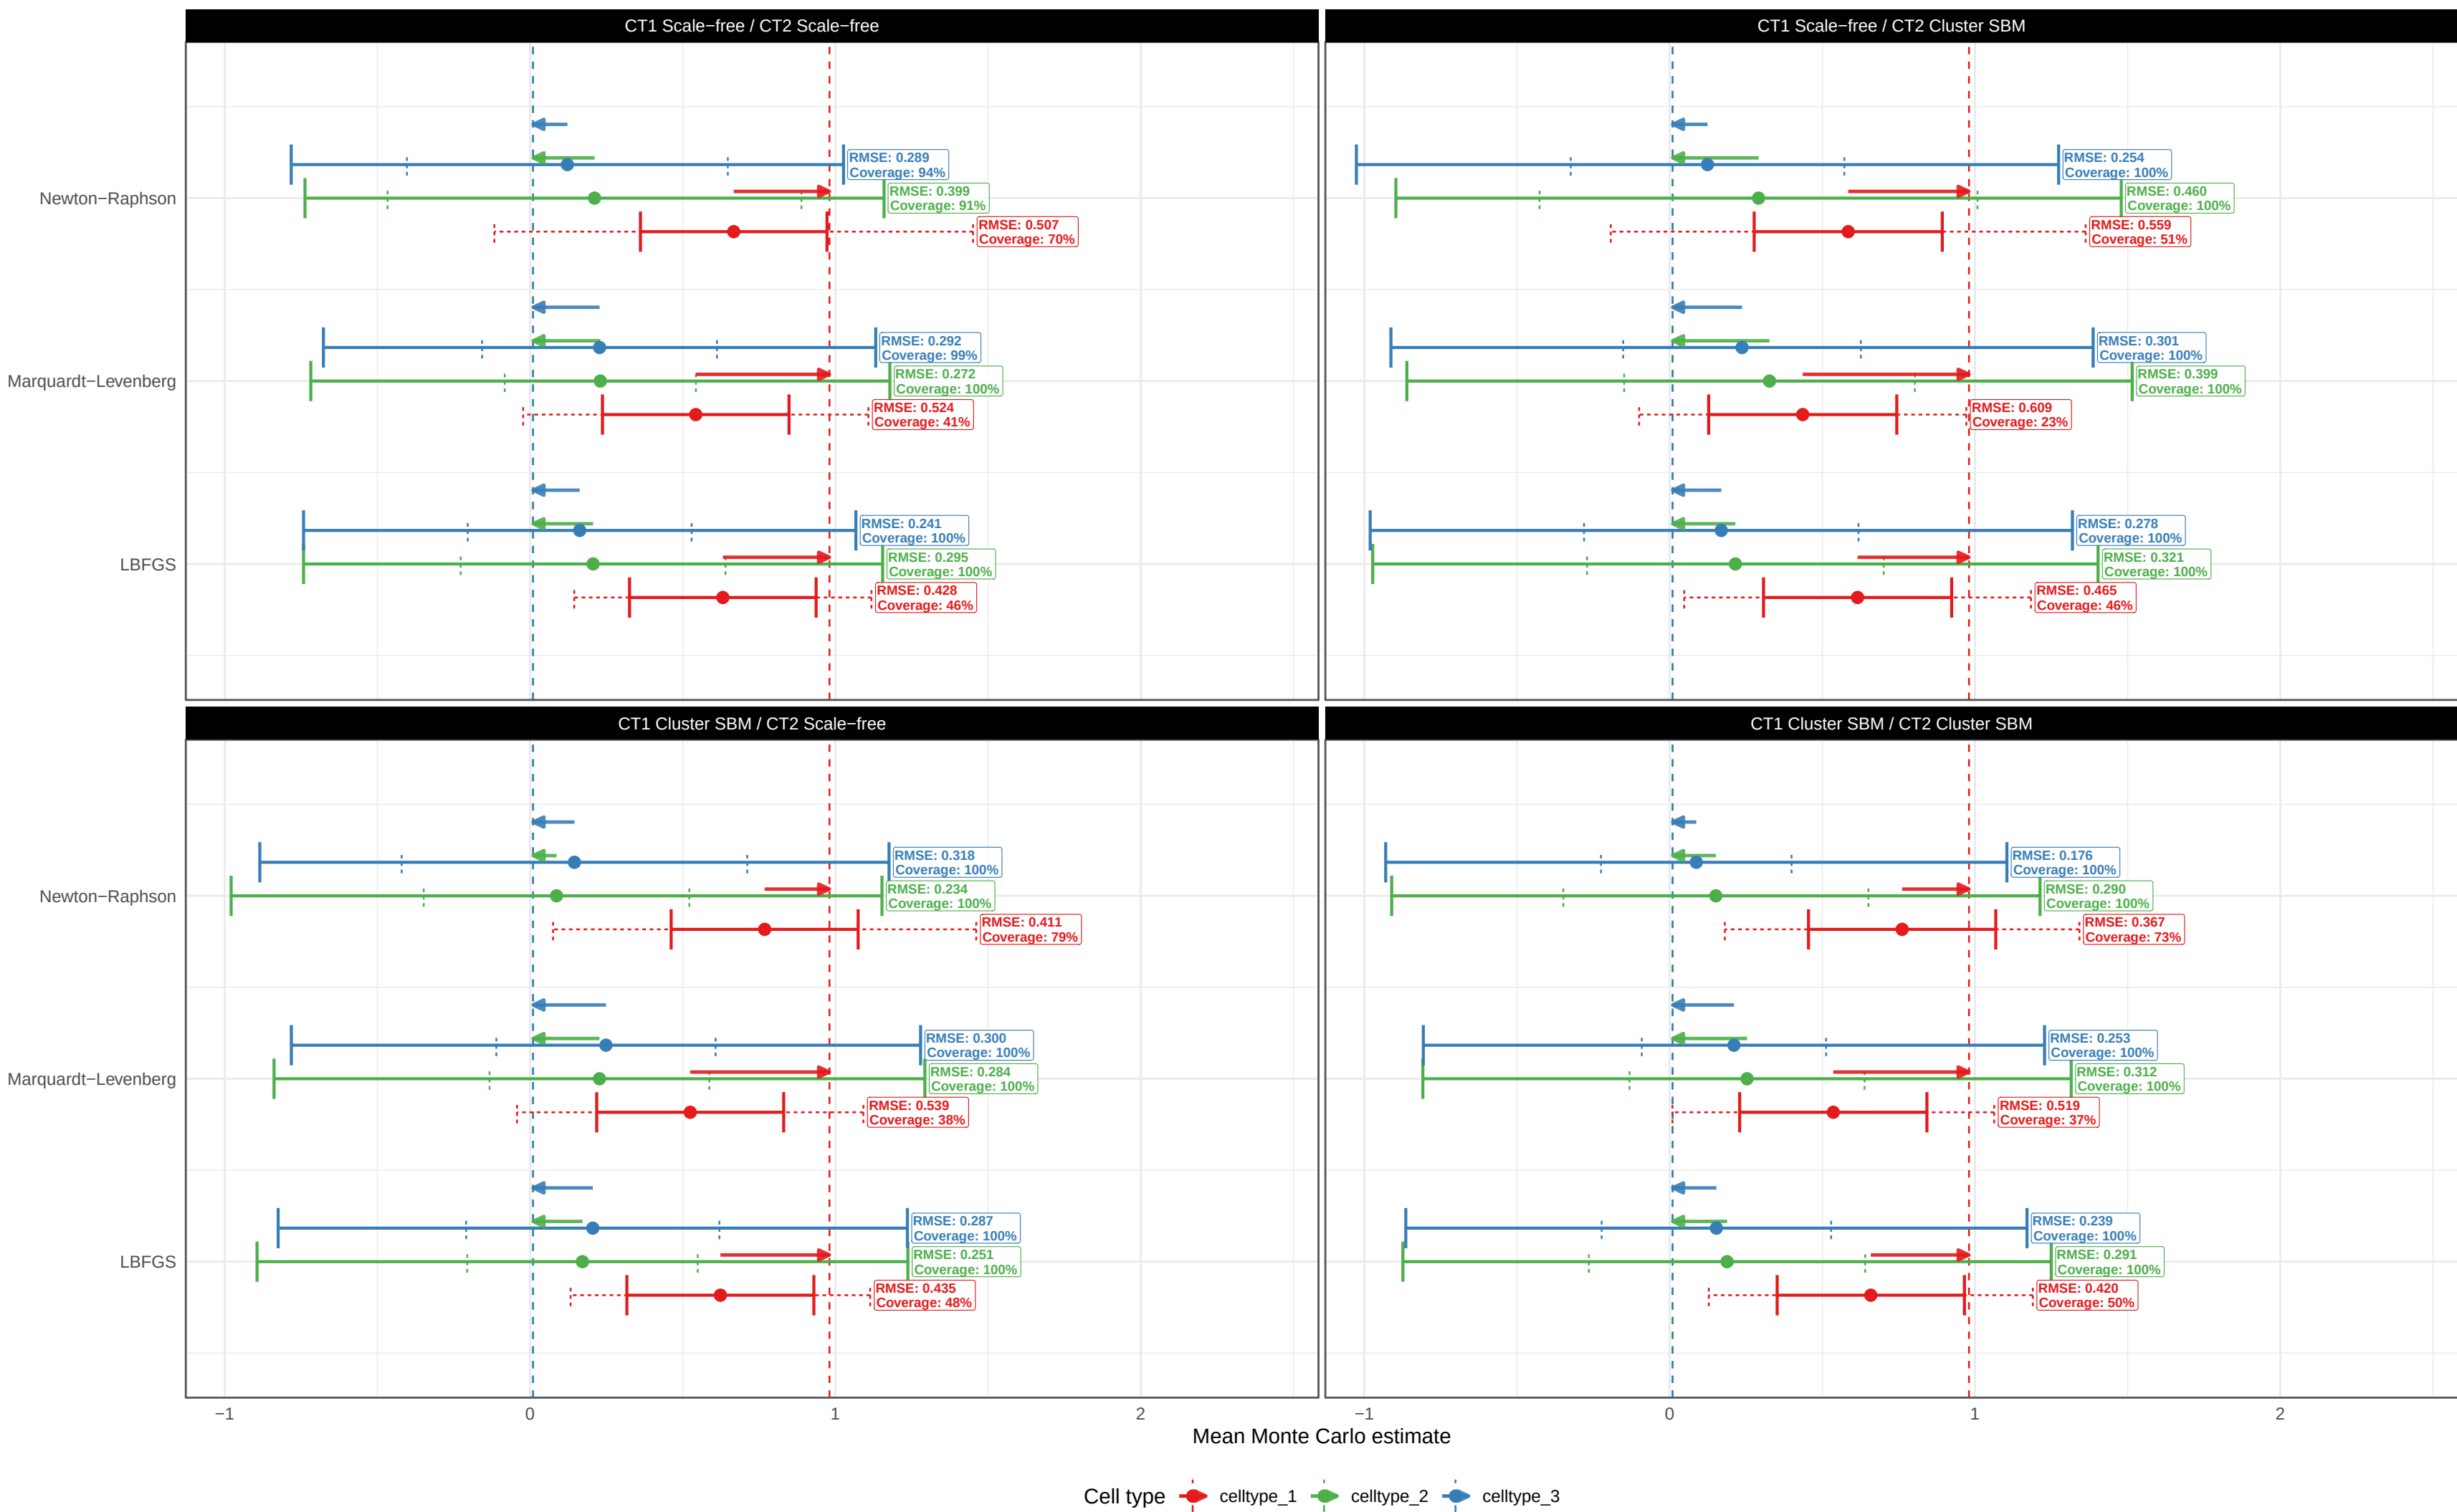

[====] Solid whiskers: mean estimate plus or minus 1.96 times the expected Fisher Wald SE at the true composition when available.
[---] Dashed whiskers: plus or minus 1.96 times the empirical Monte Carlo SD.
: : : Vertical dashed lines: true proportions (one colour per type).
Labels: RMSE and Wald coverage for each cell type.

highly unbalanced / moderate OVL

[====] Solid whiskers: mean estimate plus or minus 1.96 times the expected Fisher Wald SE at the true composition when available.
[---] Dashed whiskers: plus or minus 1.96 times the empirical Monte Carlo SD.
: : : Vertical dashed lines: true proportions (one colour per type).
Labels: RMSE and Wald coverage for each cell type.

highly unbalanced / high OVL

[====] Solid whiskers: mean estimate plus or minus 1.96 times the expected Fisher Wald SE at the true composition when available.
[---] Dashed whiskers: plus or minus 1.96 times the empirical Monte Carlo SD.
: : : Vertical dashed lines: true proportions (one colour per type).
Labels: RMSE and Wald coverage for each cell type.
