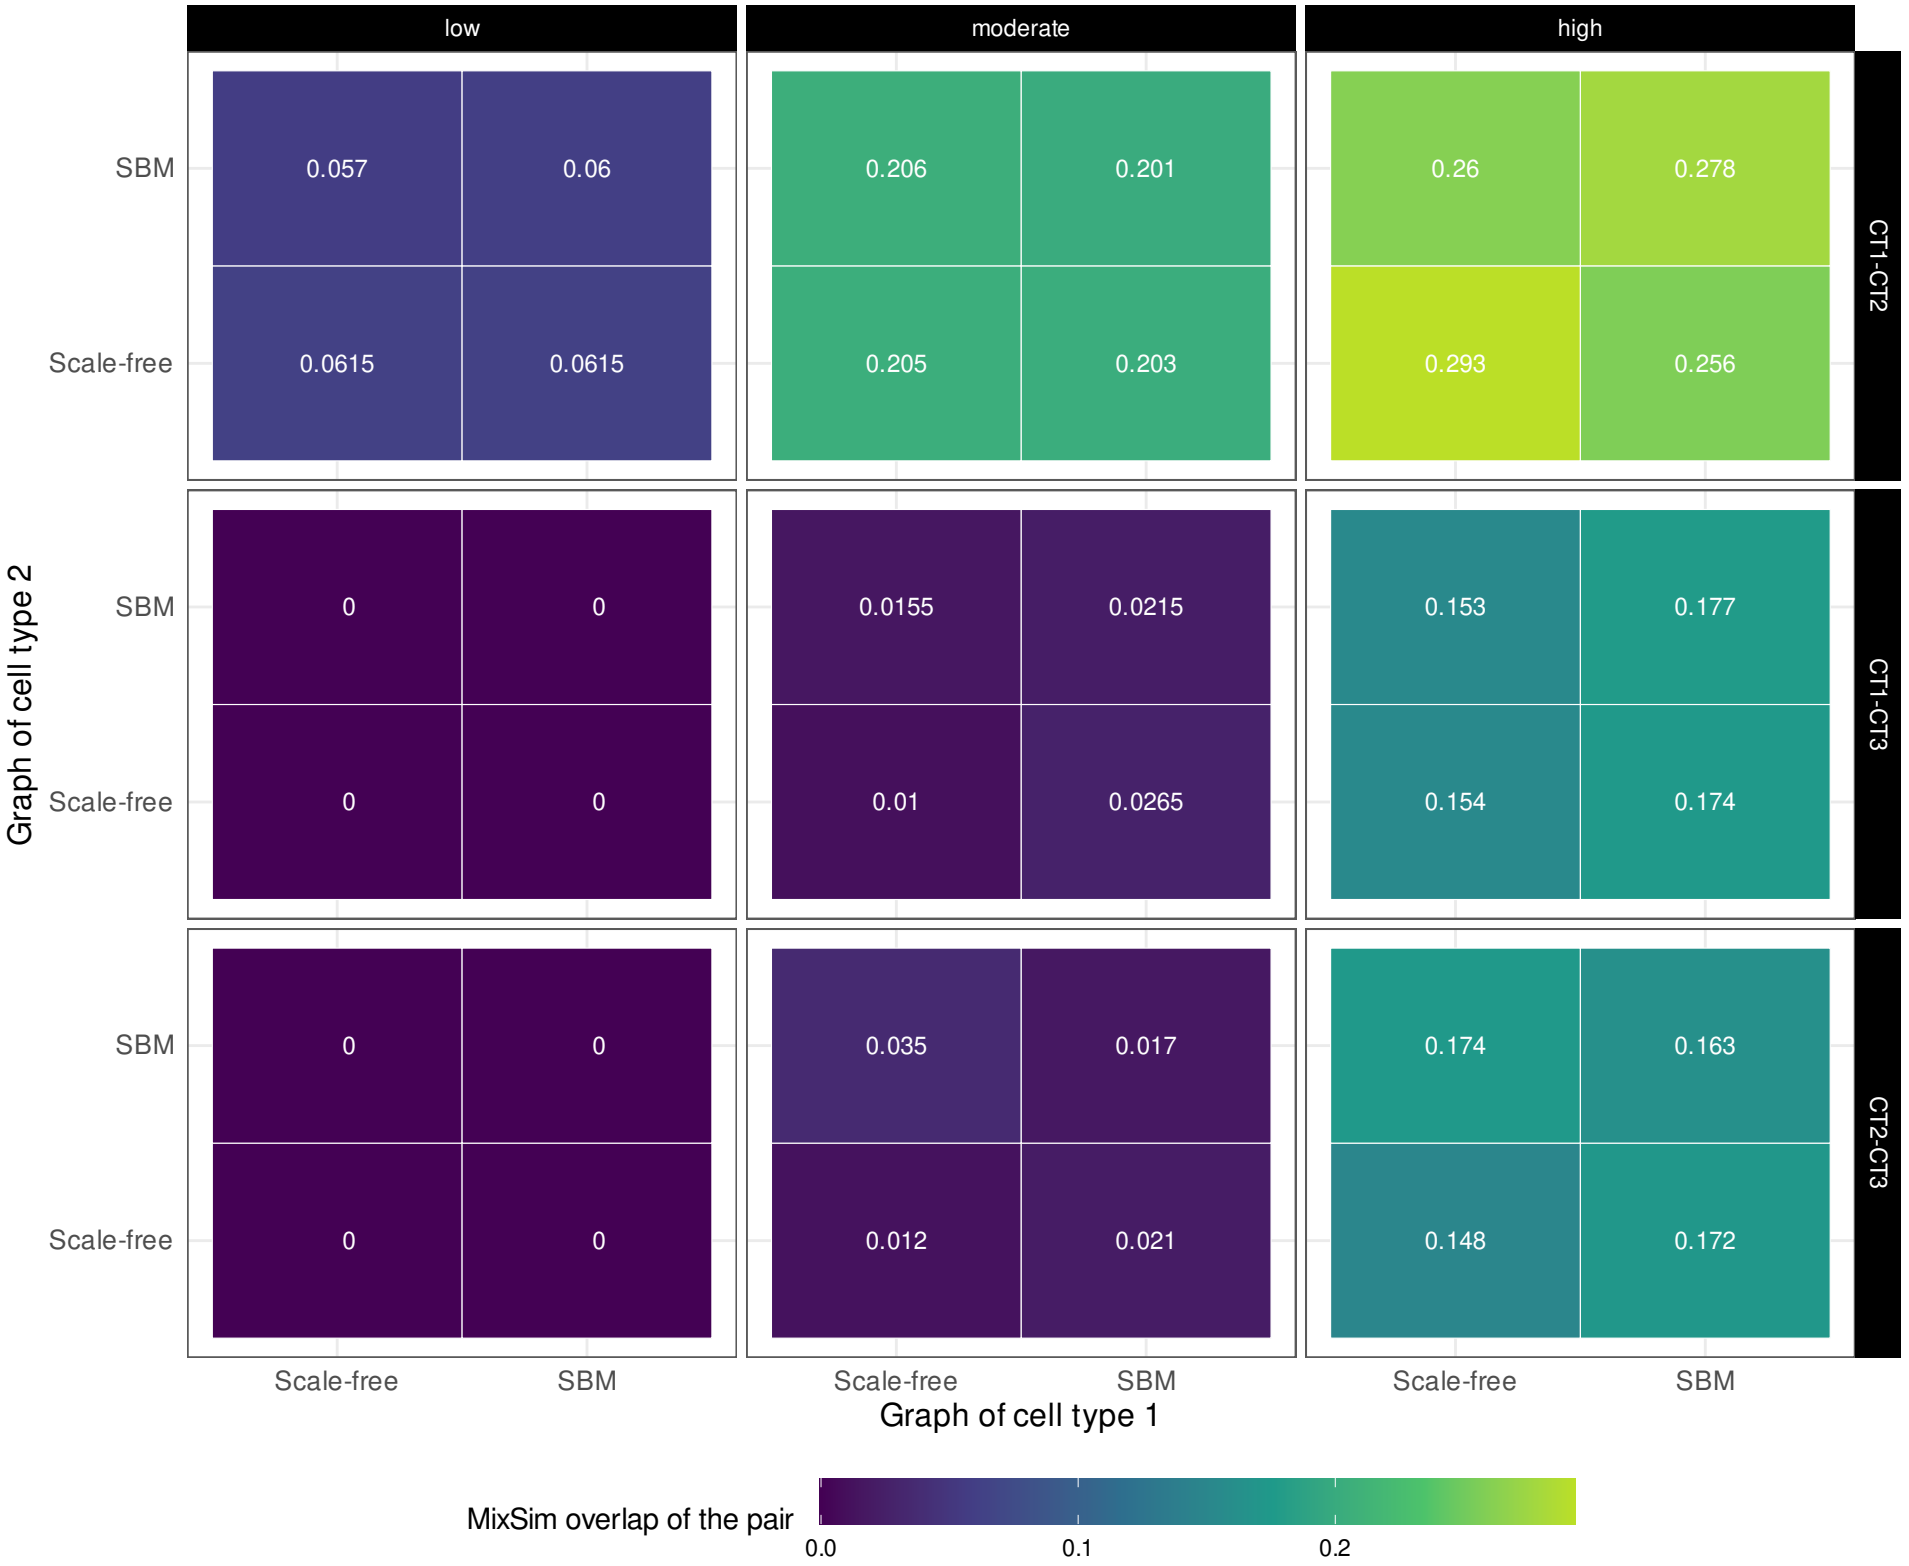
Pairwise hellinger distance

Rows: cell-type pairs; columns: overlap target

Purified laws only; none of these quantities depends on the composition.

Pairwise mixsim overlap of the pair

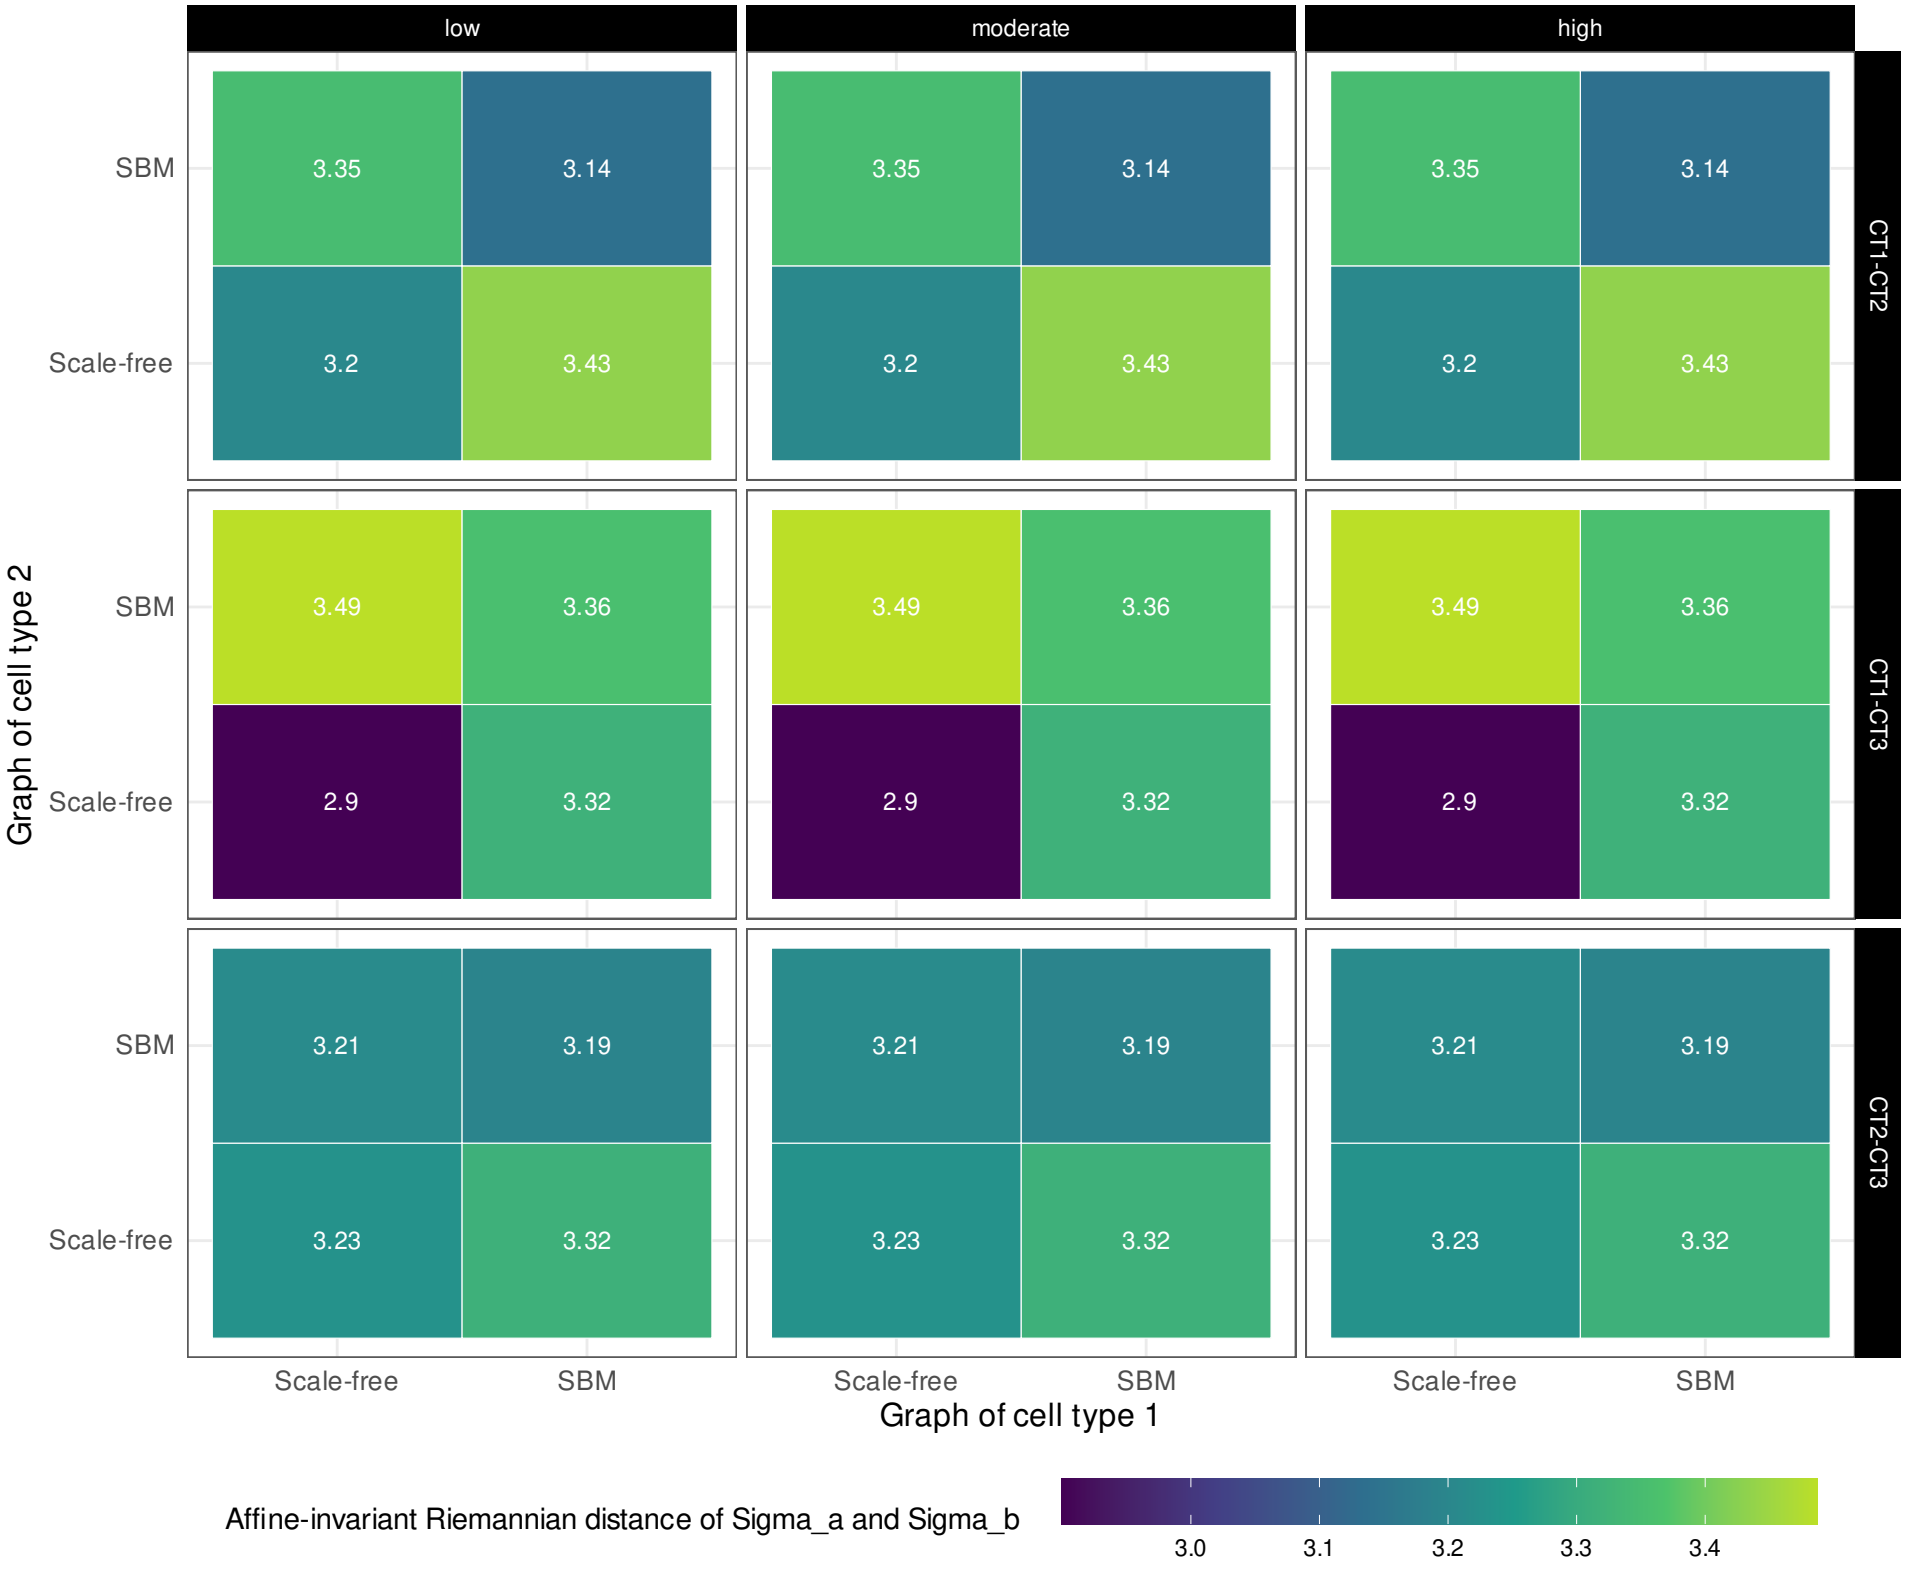
Rows: cell-type pairs; columns: overlap target



Purified laws only; none of these quantities depends on the composition.

Pairwise affine-invariant riemannian distance of sigma_a and sigma_b

Rows: cell-type pairs; columns: overlap target



Purified laws only; none of these quantities depends on the composition.
