

small_CLD / homoscedastic / moderately unbalanced

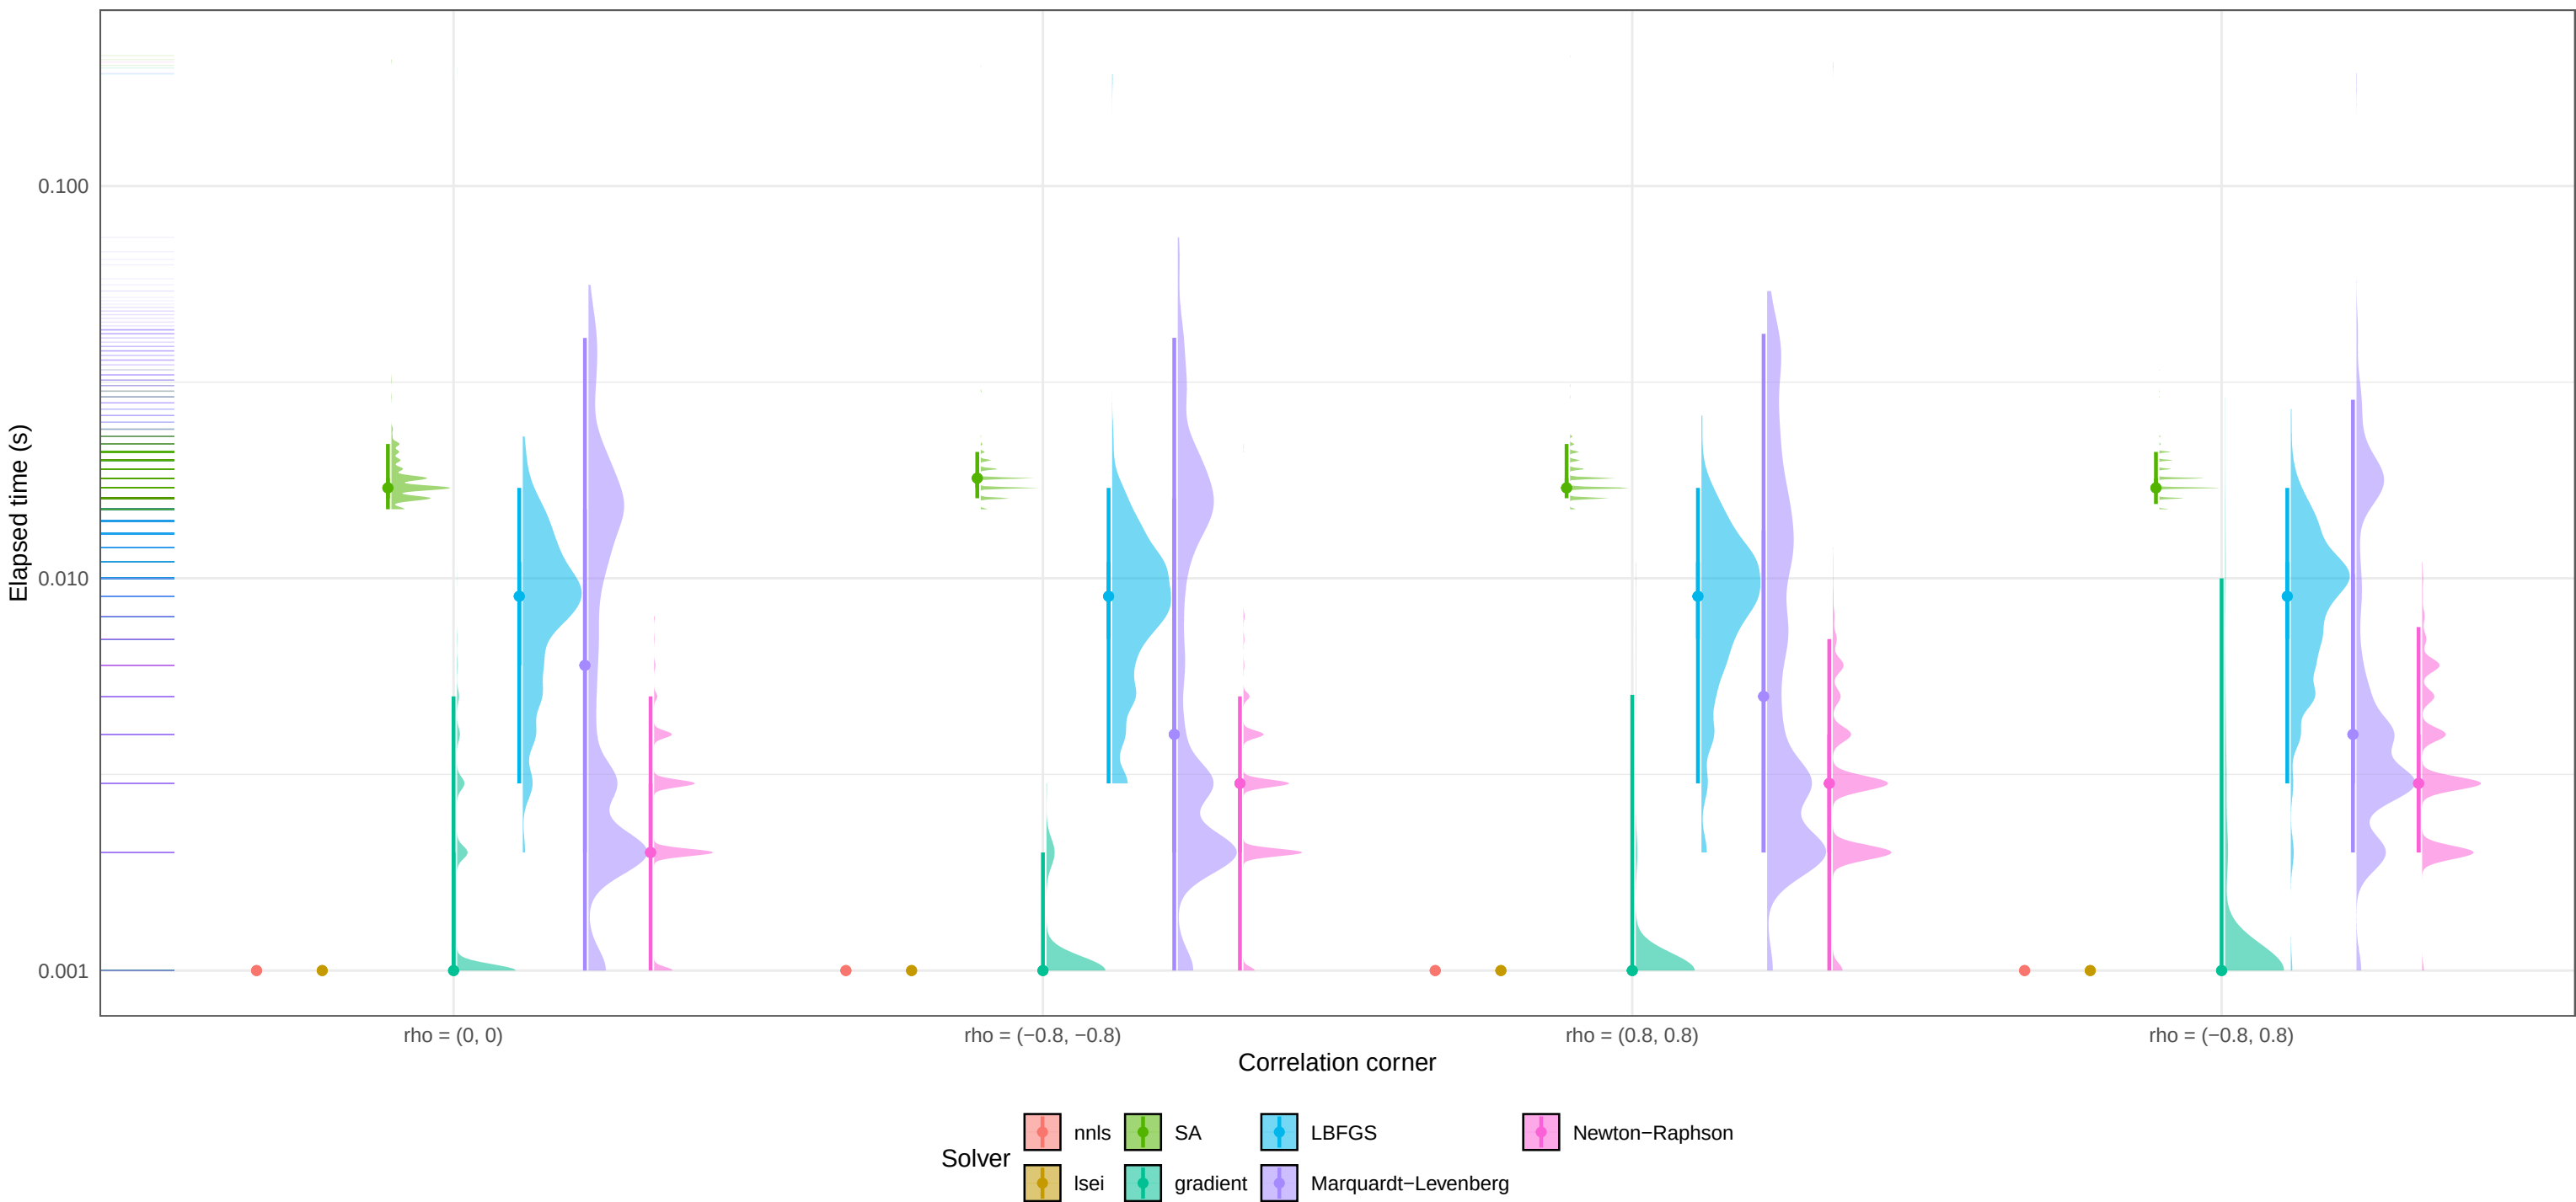

Half-eye: median and central 50% / 95% of Monte Carlo replicates. Rug: raw draws. y-axis is log10.

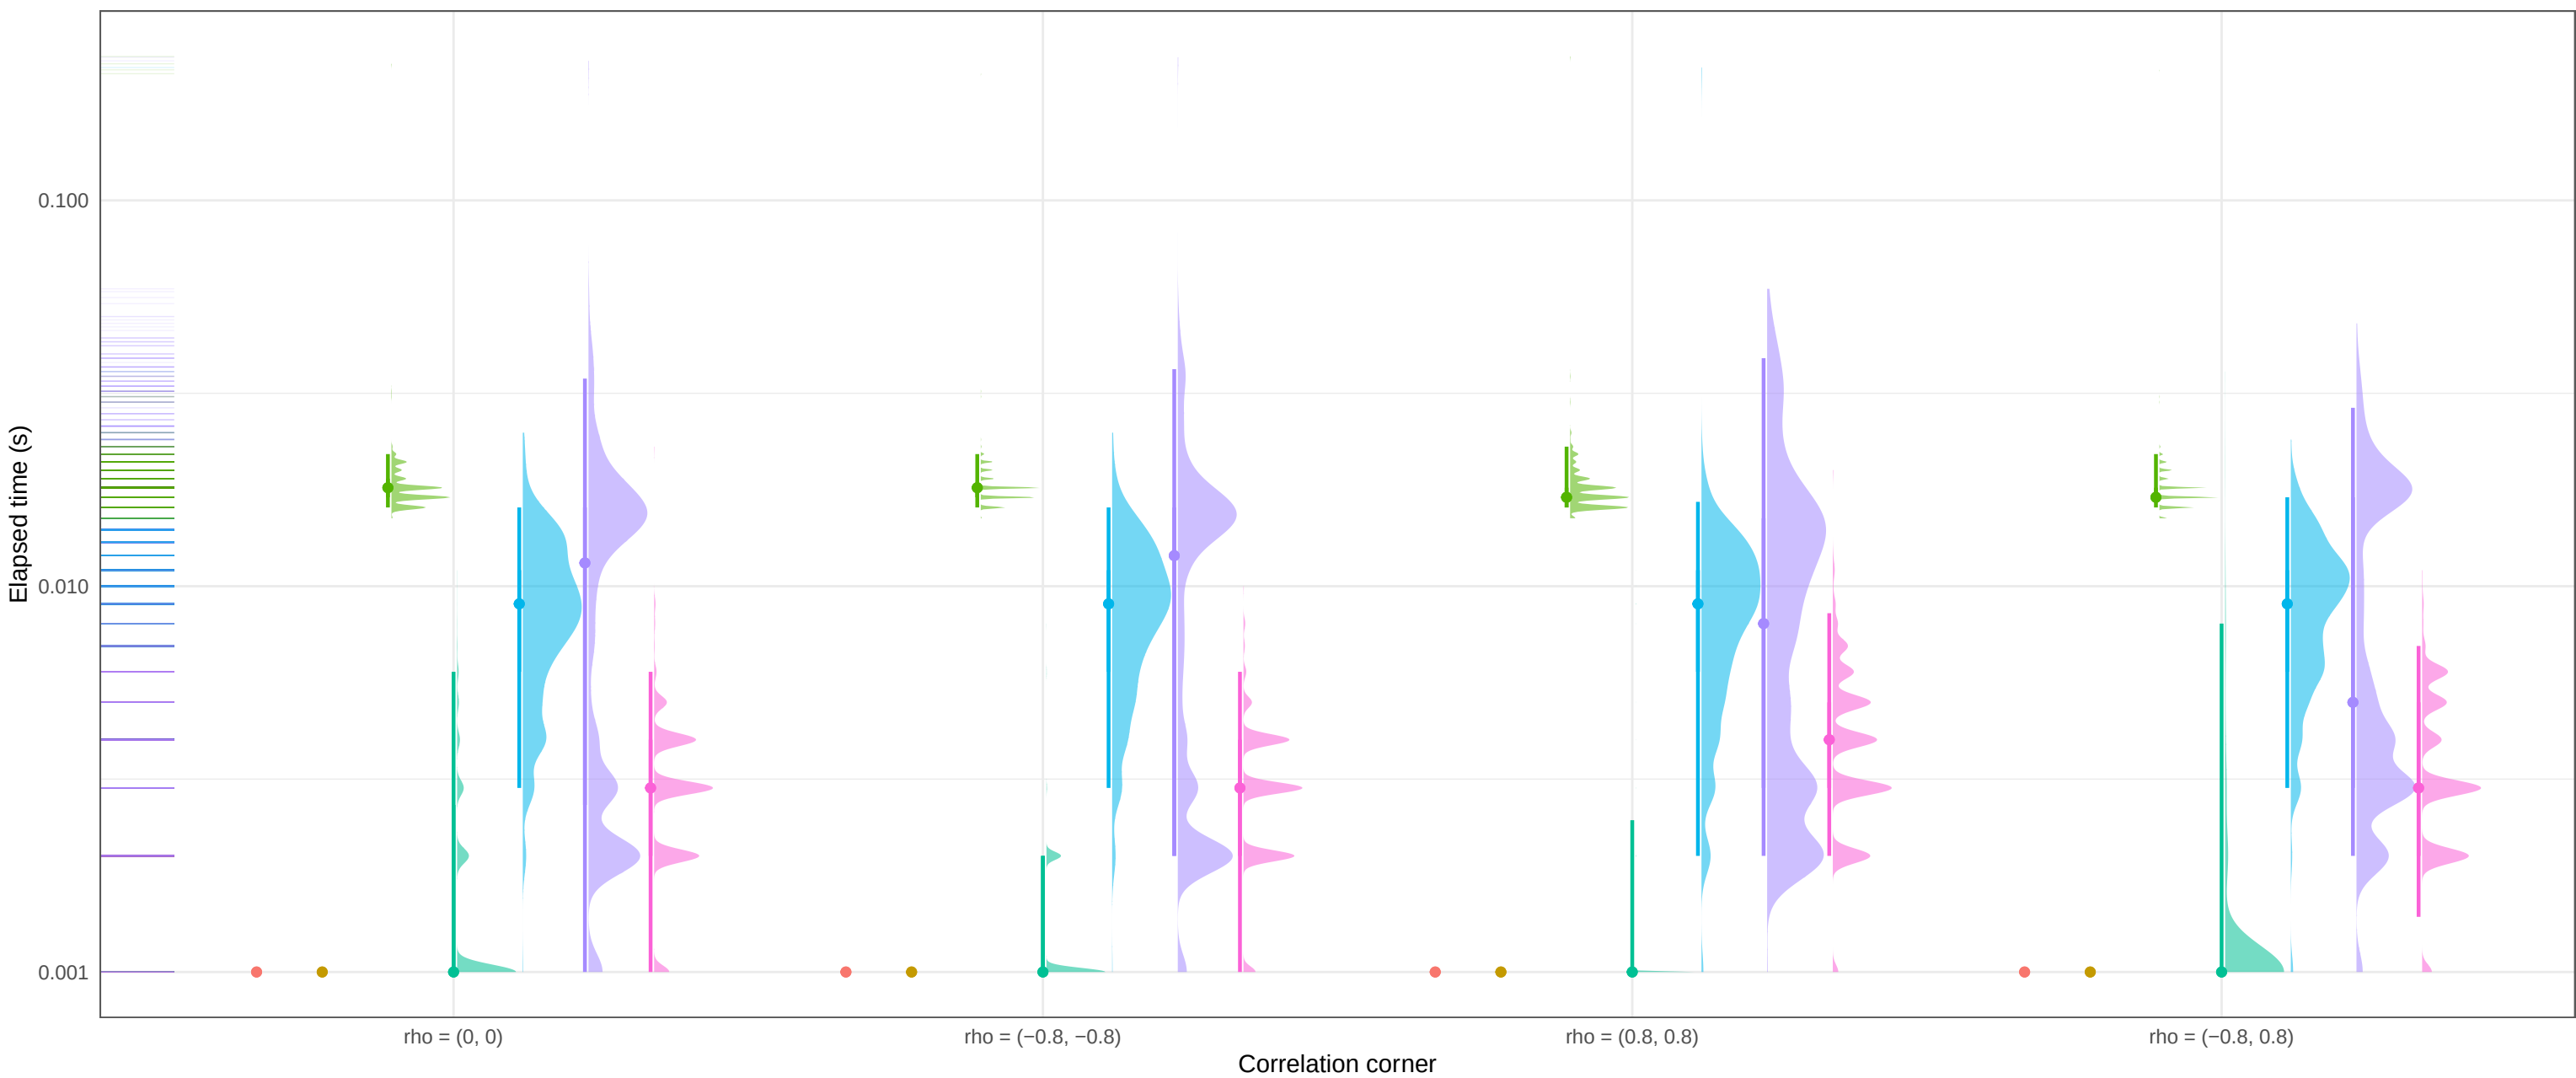

small_CLD / heteroscedastic / moderately unbalanced

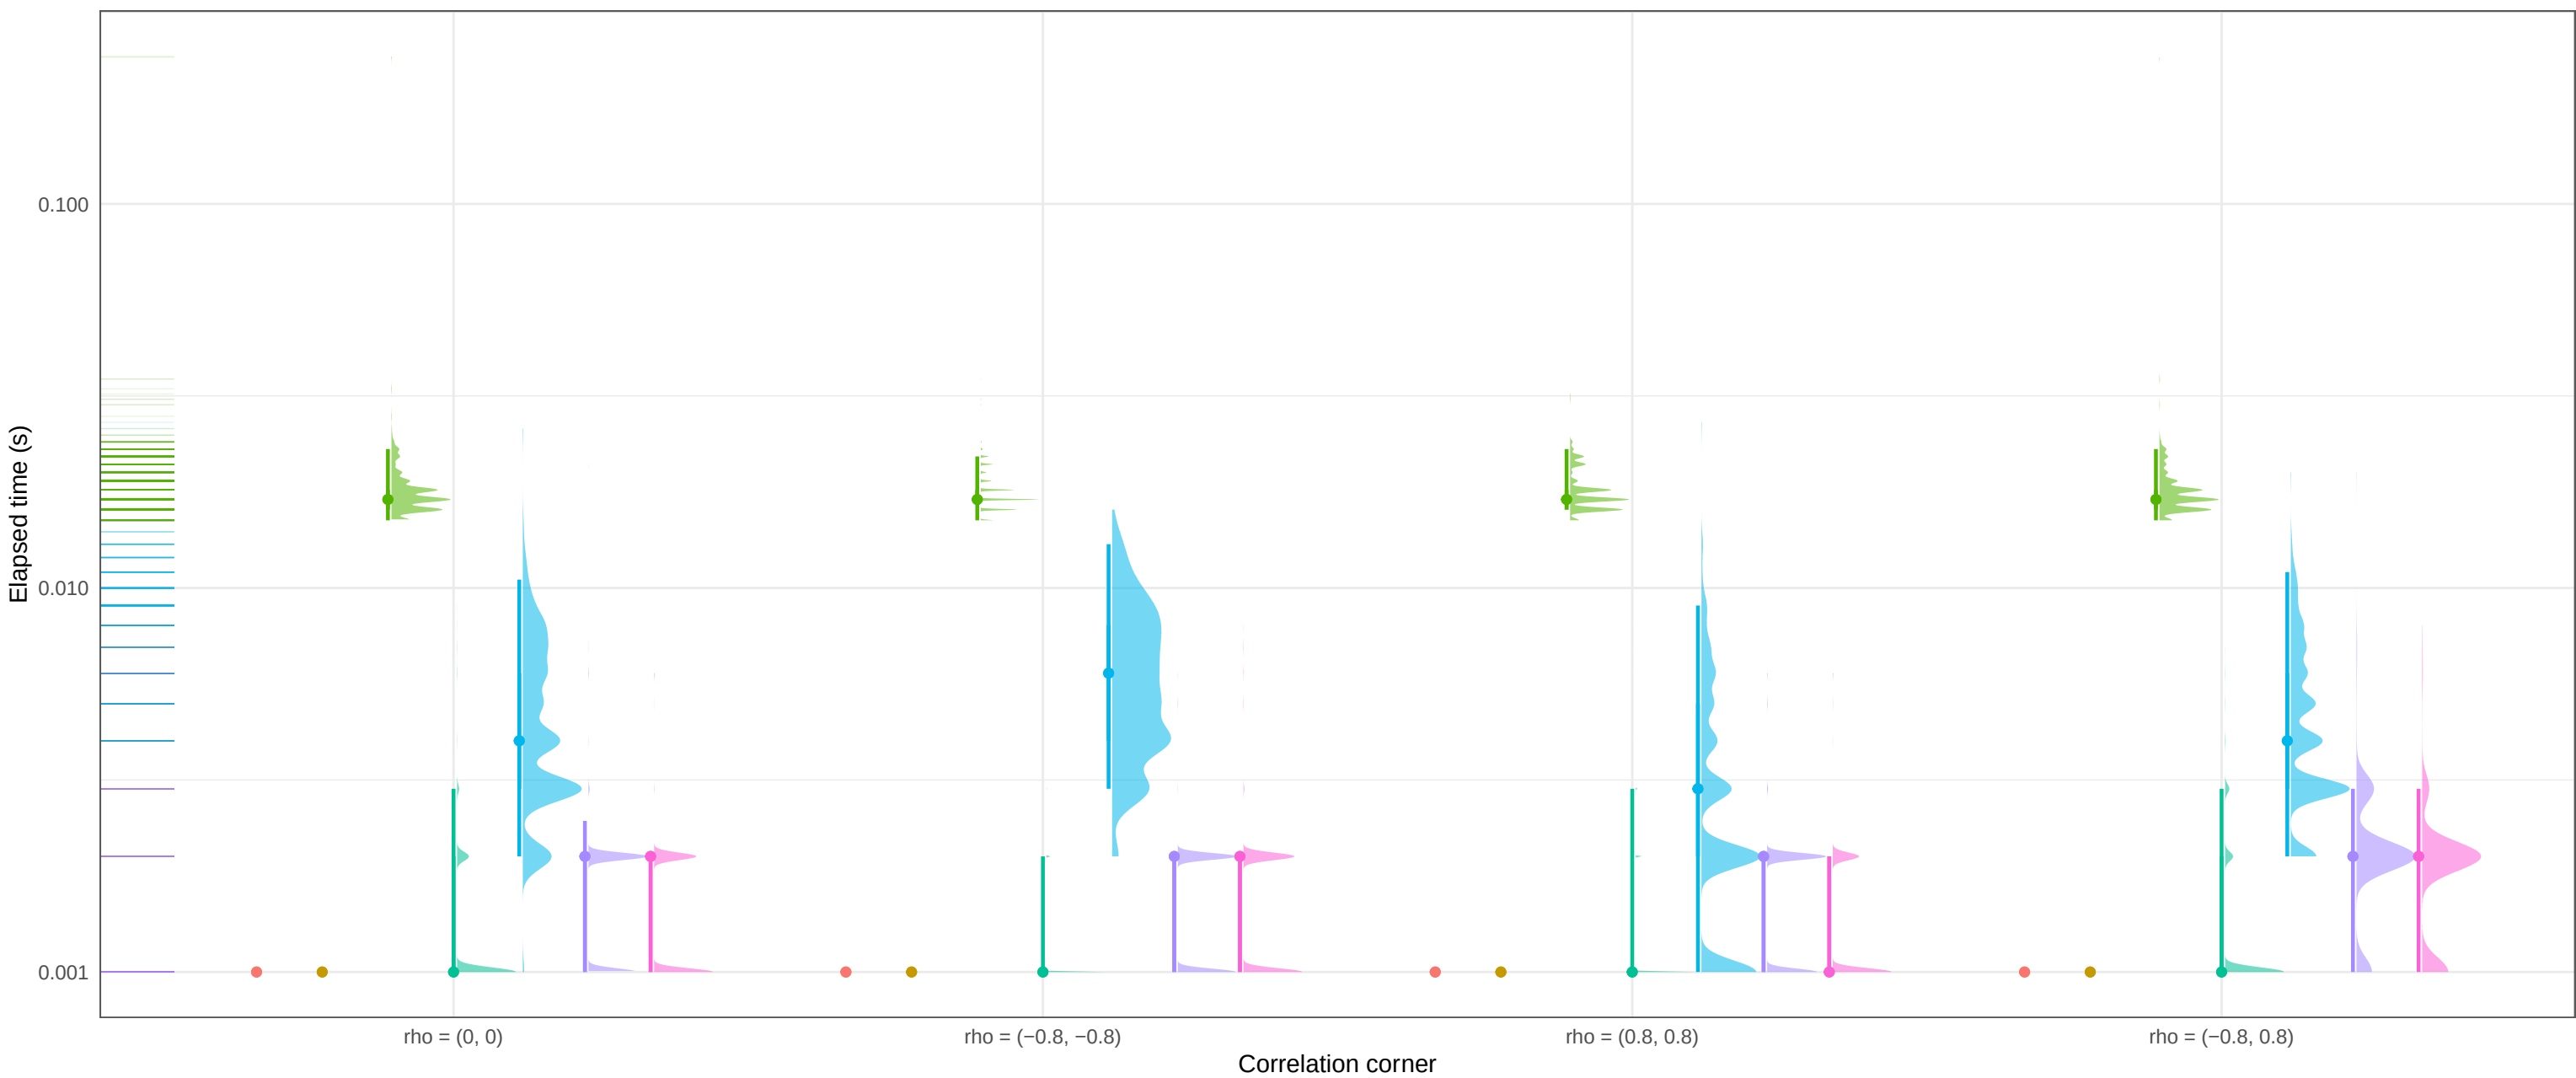

small_CLD / heteroscedastic / highly unbalanced

Solver

nnls	SA	LBFGS	Newton-Raphson
lsei	gradient	Marquardt-Levenberg	

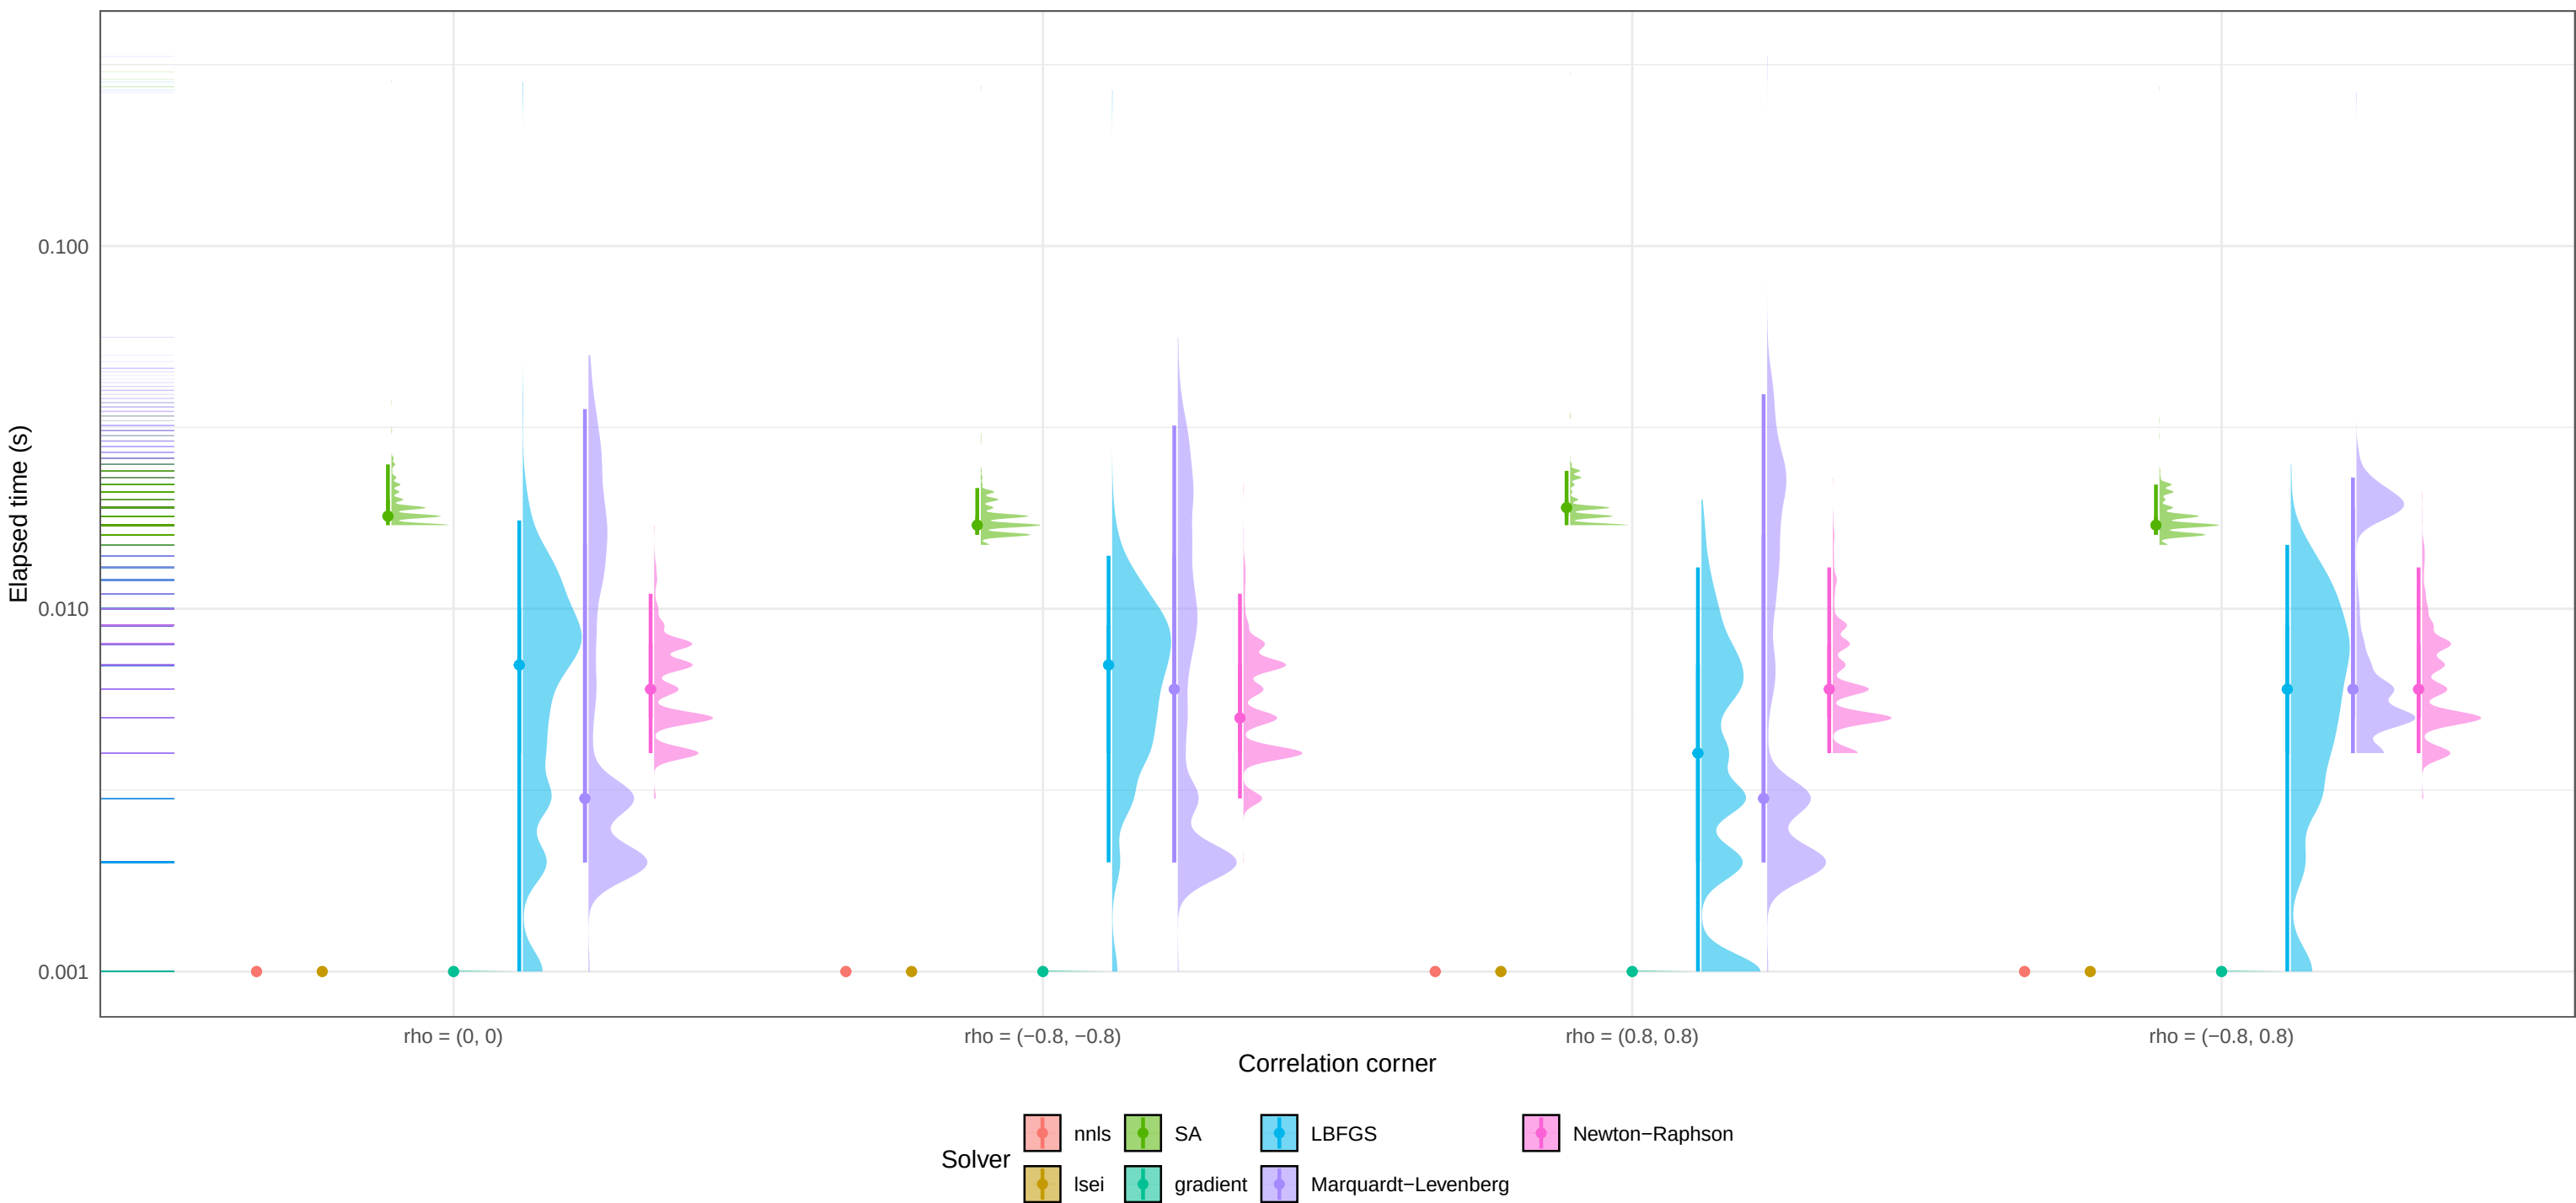

Half-eye: median and central 50% / 95% of Monte Carlo replicates. Rug: raw draws. y-axis is log10.

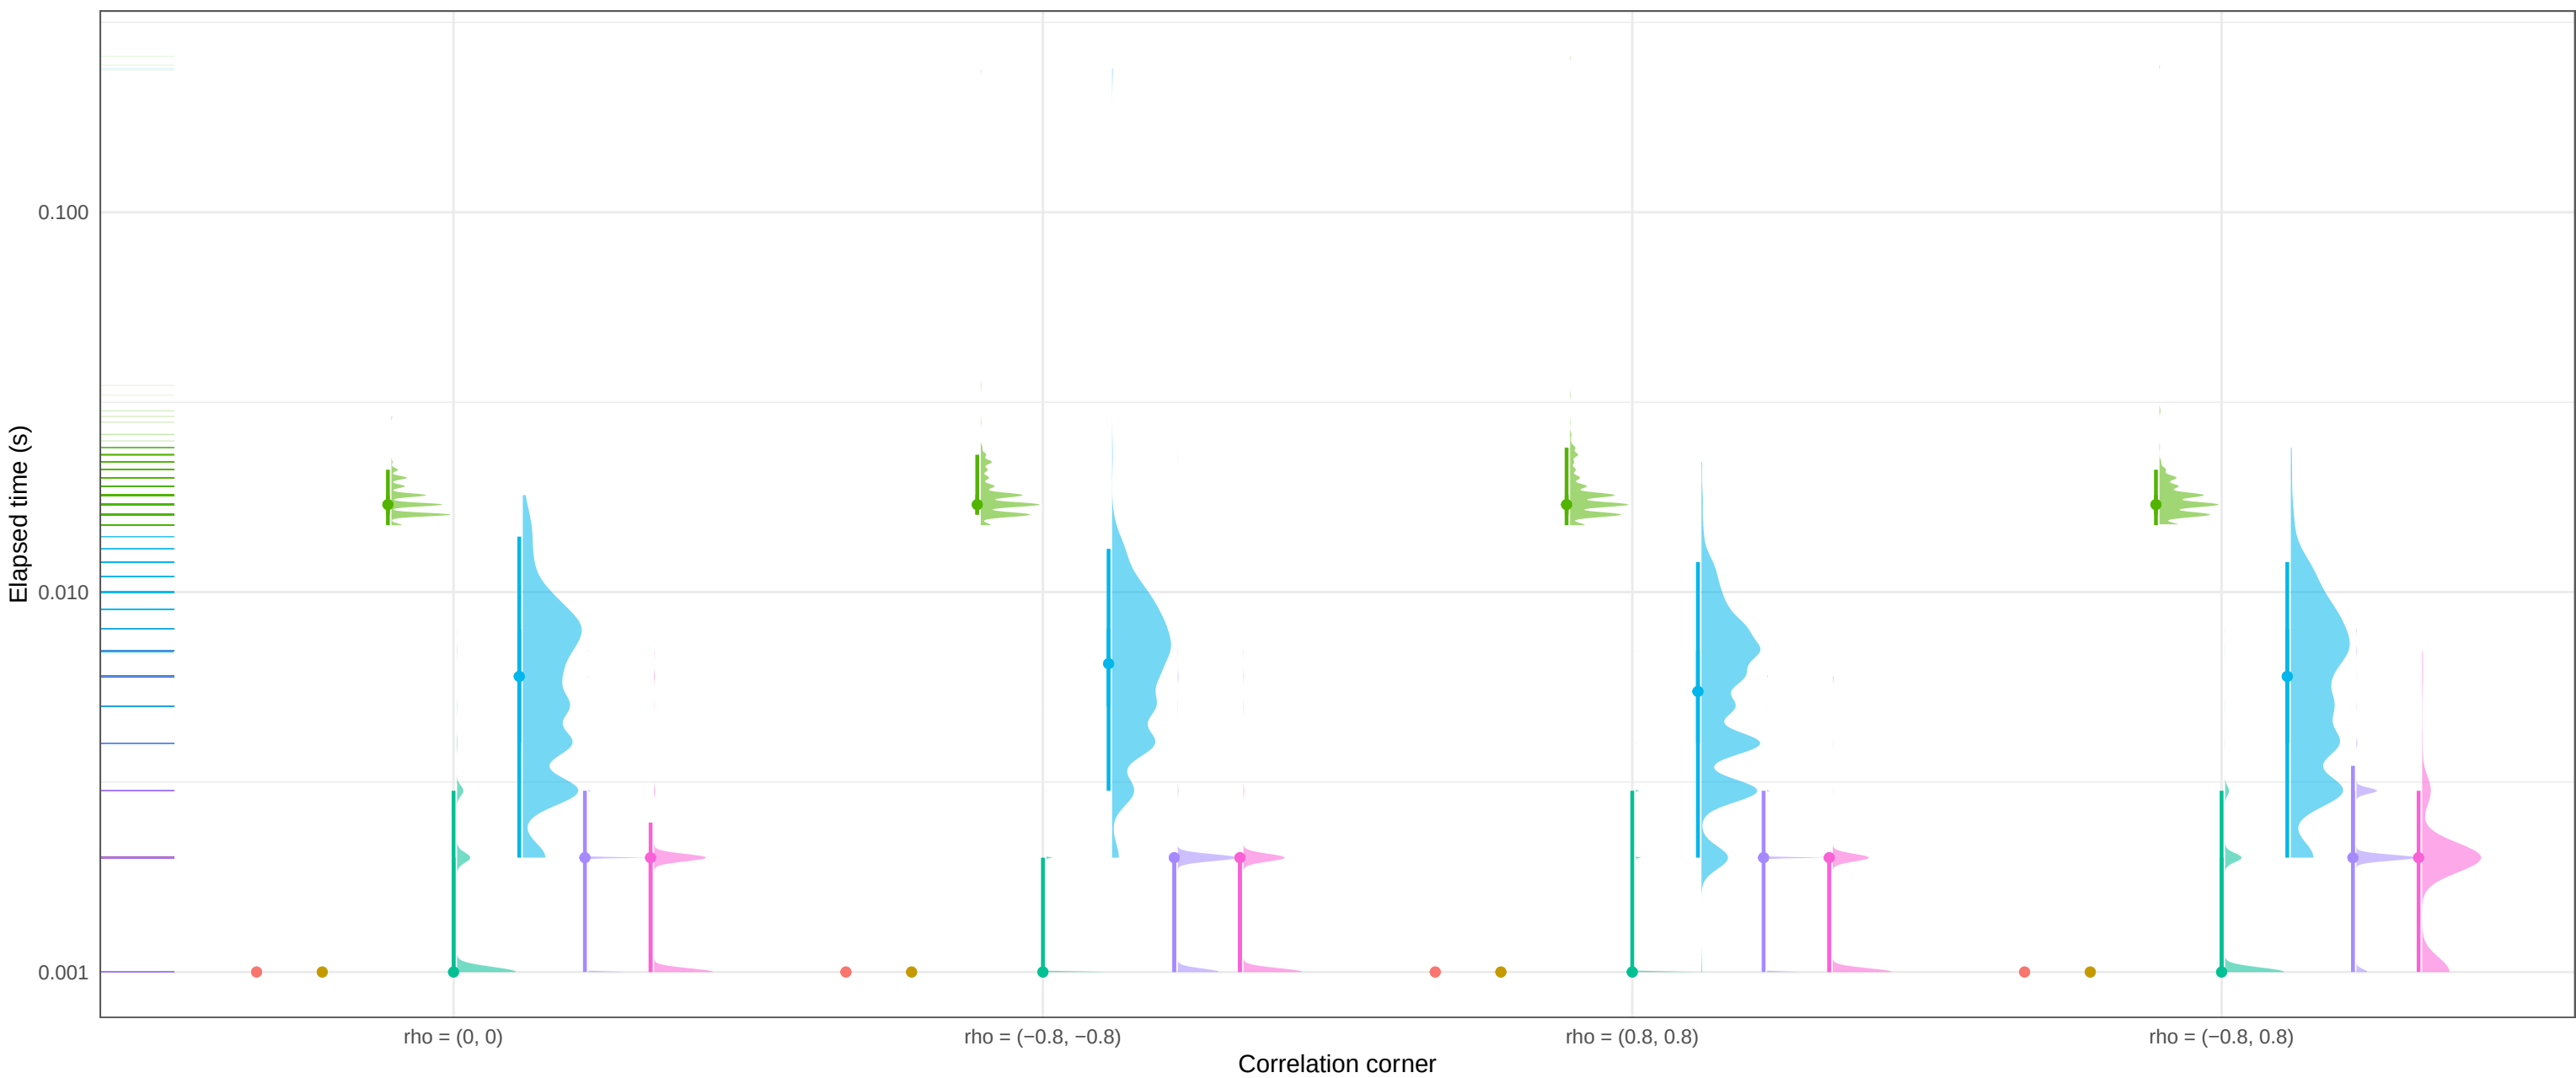

large_CLD / homoscedastic / moderately unbalanced

Half-eye: median and central 50% / 95% of Monte Carlo replicates. Rug: raw draws. y-axis is log10.
